Shadow In The Land Homosexuality In America:

Shadow in the Land William Dannemeyer,1989 **Gay in the 80s** Colin Clews,2017-02-03 The 1980s heralded many challenges for LGBT people around the world and Colin Clews examines these in his new book These included the rise of the New Right in the USA Section 28 which prohibited the promotion of homosexuality the trial of Gay s the Word bookshop in the UK and the continuing criminalisation of homosexuality in the majority of Australian states Underpinning all of this was the unfolding of the AIDS crisis a time when LGBT people realised that they were no longer simply fighting for their rights but quite literally fighting for their lives But it wasn't all doom and gloom by the end of the eighties there had been some very real progress Major political parties had LGBT rights in their manifestos trades unions increasingly took up the cause and regional legislators introduced anti discrimination laws and policies LGBT people became more prolific in film television music and literature and the LGBT community grew significantly The book also examines the dynamics behind these changes some the result of prolonged campaigns others stemming from the growing influence of the pink pound dollar others still a consequence of the growing anger at government intransigence to the AIDS crisis Gay in the 80s examines a number of the events and issues in the UK USA and Australia giving a comprehensive perspective of LGBT reality during this decade The book covers the broad political context of the 1980s and takes a comparative approach to events in the three countries where Colin either lived or spent large amounts of time Colin Clews debut book offers a unique perspective on a pivotal era in LGBT history It will appeal to readers that want to learn more about the LGBT experience in the 1980s Its publication also coincides with the 50th anniversary of the 1967 Sexual Offences Act which partially decriminalised homosexuality and the 30th anniversary of the Don't Die of Ignorance AIDS awareness campaign A number of film and television events are planned to commemorate both anniversaries and Colin will be contributing to some of them House on Fire David N. Cicilline,2022-08-30 Congressman David Cicilline offers his provocative takes on Republicans Democrats and the world of politics in the wake of Donald Trump The rioters were still in the Capitol shattering the door to the House Chamber and bellowing Hang Mike Pence when David Cicilline safely locked inside his office began writing the articles of impeachment that would lead to Donald Trump's second Senate trial He helped prosecute the case earning admiration from his fellow progressives and a national following But by summer he would be calling out some of those same colleagues for caving to special interests and attempting to block his plan to rein in the Big Tech companies like Facebook and Google Beyond sounding an alarm House on Fire identifies the key threat to our democracy that the GOP has become a Trumpist authoritarian cult and outlines how we fight back A response that must include both citizen opposition and practical reforms including an end to the Senate filibuster discarding the Electoral College expanding the Supreme Court and requiring that justices adhere to a code of ethics Cicilline actually believes in politics and the system He used them both to deliver for the people in a once corrupt city he ran as mayor and in Washington where he has risen to help lead the Democratic Party in

Congress In HOUSE ON FIRE Cicilline spares no one from criticism as he argues for a politics that produces results and warns that without it Trump or someone worse will take power in 2024 and make us wish for the days when the only thing we complained about was gridlock

Why Conservatives Tell Stories and Liberals Don't David M Ricci, 2015-12-03 Why do conservatives tell stories Because it helps them win elections and assail liberal policies like health care reform and economic stimulus Why is important but the what and the how behind the stories that conservatives tell are equally interesting and in this new book David Ricci reveals all He shows how conservative activists and candidates tell many tales that come together to project a large scale story a cultural narrative a vision of what America is and what it should do to prosper socially economically and politically Liberals by contrast tend to look for theories rather than stories for mathematical explanations rather than theological axioms for data rather than anecdotes and for statistics rather than homilies The difference is paradoxical Liberals are unlikely to fashion sweeping narratives that capture the public s attention and commitment Yet conservatives may tell attractive stories like the ones that got us into Iraq that momentarily capture voter support but end up costing the country more than it can afford
