Shadow Justice The Ideology And Institutionalization Of Alternatives To Court:

Shadow Justice Christin Harrington, 1985-11-19 This first critical examination of informal dispute processing links the institutionalization of alternatives to the court process and the ideology of informalism with the evolution of the American court system The author connects dispute processing reform to the broader social and political context in which it developed including the rise of judicial management in the Progressive period and the reconstruction of court unification in the 1970s Harrington defines legal resources and their distribution in alternative dispute resolution policy before focusing on the institutionalization of this reform in a case study of a federally sponsored Neighborhood Justice Center In conclusion Harrington finds that the symbols of informalism and its institutions are a mere shadow of conventional legal practices

Shadow Justice Christine B. Harrington, 1985 Unleashing Rights Helena Silverstein, 2009-09-15 Unleashing Rights is a study of the animal rights movement's efforts to advance social reform through the deployment of legal language and practices The study looks at how prevailing understandings of rights language have shaped the attempt to put forth the idea that animals have rights and how this attempt in turn offers the opportunity to reconstruct the meaning of rights The book also examines the way litigation has influenced the movement's activities and opportunities for success Presented here is an investigation of the legal system through a decentered cultural approach Legal languages and practices are viewed as a part of everyday life constructed used and interpreted not only by those who run official legal institutions but also by everyday people with a legal consciousness Using this approach the book questions whether the deployment of rights and litigation by animal rights advocates has challenged prevailing legal meaning Looking to both the constitutive and instrumental aspects of law and to how each informs the other Unleashing Rights finds that the resort to rights and litigation has advanced movement goals and contributed to alternative constructions of legal meaning The study concludes that despite their many constraints both rights talk and litigation are powerful resources for those who seek change especially when used by strategically minded activists Unleashing Rights is a book that illustrates the relationship between law social movement activism and social change The book joins the ongoing debate within public law scholarship that is concerned with the effectiveness of legal strategies and languages The book also speaks to those interested in the general study of social movements and in the particular study of the animal rights movement With its cultural approach focused on rights language and the construction of meaning the work will be of interest to the disciplines of law and political science as well as those who study sociology anthropology and philosophy Helena Silverstein is F M Kirby Assistant Professor of Government and Law Lafayette College The Blackwell Handbook of Mediation Margaret S. Herrman, 2009-02-09 This handbook invites readers who are interested in mediation negotiation and conflict resolution to share the perspectives of experts in the field Contributors include scholars mediators trainers and negotiators all of whom are passionate about their work Emphasises both internal and external factors as important sources of influence when negotiating conflicts Explores the cultural and

institutional frameworks that have shaped intervention processes. Considers what techniques might work when, how, and why. Demonstrates the sophistication of contemporary studies of mediation, negotiation, and conflict resolution. **Alternative**

Dispute Resolution in Civil Justice Systems Roger E. Hartley, 2002. Hartley examines the introduction of alternative dispute resolution, e.g., mediation, in a court system in Georgia. Attorneys supported the introduction of mediation to consolidate control of the legal process and to add it to their practices. They also used mediation to settle some cases more quickly. Mediation gave judges flexibility to weed out minor cases and process others more quickly. However, these changes were not so great as to put a dent in settlement or trial rates, and Hartley concludes that while changes in court procedures have effects, researchers need to examine the behavior of actors in depth in order to discover these effects. Restorative

Justice Holly Ventura Miller, 2008-05-19. Covers scholarly work in criminology and criminal justice studies, sociology of law, and the sociology of deviance. **Mediating Interpersonal and Small Group Conflict** Cheryl A. Picard, 2002-09. This book has been written as a primer for individuals interested in improving their skills for dealing with interpersonal and small group conflict at home or at work. It is for students learning about conflict resolution and mediation. And it is a book for would-be mediators. **Mediation across the Globe** Kevin Brown, Santiago Madrid Liras, Emilio Navas Paús, 2018-10-29. Every

mediator recalls how difficult it was to break into the field of Alternative Dispute Resolution (ADR) and how gaining initial experience was near impossible. This eye-opening book provides insights into what success looks like in a mediation practice. The Annual World Mediation Summit brings some of the most forward-thinking international conflict experts together in this book, sharing their accounts of how mediation is used to resolve interpersonal and international conflicts so that participants walk away from the conflict with win-win solutions. This book will appeal to anyone interested in practical experiences in mediation across the globe or wanting to discover how the most successful mediators operate. It is also appropriate for anyone interested in learning from successful judges, lawyers, and mediators. Furthermore, this book will be useful to anyone who wants to learn about how mediation works worldwide and to learn from mediators' challenges and capitalize on their successes. The twenty-plus chapters here are written by authors from across the globe supporting the use of mediation in place of other more complicated systems. Their experiences are thoughtfully and clearly described in this book. Campus

Action against Sexual Assault Michele A. Paludi, 2016-05-16. A practical guide to prevention of and response to sexual assault on college campuses. This invaluable resource will help ensure Title IX compliance and can also help reduce the incidence of these all-too-prevalent events. The frequency of sexual assault on college campuses is startlingly high. Notwithstanding this fact, most campus officials are not trained in the psychology of the victimization process, while most students are not aware of their reporting options. A practical guide to sexual assault at colleges and universities, this book integrates theories and empirical research with information about legislation and techniques to help college administrators deal with and prevent these disturbing offenses. The work brings together a team of experts who discuss various types of assault, including rape.

stalking intimate partner violence and sexual harassment and detail the legal educational and federal responses to such events on college campuses They address federal and state laws including new bills being proposed in Congress and present research on the physical and psychological dimensions of sexual assault Perhaps most important the book shows how human resource techniques and principles can be used to establish preventative measures and to respond appropriately when sexual assault does occur Students accounts of prevention training and education enhance the scholarly and legal contributions to this important and timely volume

The French Connection in Criminology Bruce A. Arrigo, Dragan Milovanovic, Robert Carl Schehr, 2012-02-01 Winner of the 2005 Outstanding Book Award presented by the Crime and Juvenile Delinquency Division of the Society for the Study of Social Problems This is the first comprehensive accessible and integrative overview of postmodernism's contribution to law criminology and social justice The book begins by reviewing the major contributions of eleven prominent figures responsible for the development of French postmodern social theory This first wave includes Roland Barthes Jean Baudrillard Hélène Cixous Gilles Deleuze Jacques Derrida Michel Foucault Félix Guattari Luce Irigaray Julia Kristeva Jacques Lacan and Jean-François Lyotard Their respective insights are then linked to second wave scholars who have appropriated their conceptualizations and applied them to pressing issues in law crime and social justice research Compelling and concrete examples are provided for how affirmative and integrative postmodern inquiry can function meaningfully in the world of criminal justice Topics explored include confinement law and prison resistance critical race theory and a jurisprudence of color media literary studies and feminism restorative justice and victim offender mediation processes and the emergence of social movements including innocence projects and intentional communities
