Fumbling the Future Robert C. Alexander, Douglas K.

Smith, 1999-06-01 Ask consumers and users what names they associate with the multibillion dollar personal computer market and they will answer IBM Apple Tandy or Lotus The more knowledgeable of them will add the likes of Microsoft Ashton Tate Compaq and Borland But no one will say Xerox Fifteen years after it invented personal computing Xerox still means copy Fumbling the Future tells how one of America's leading corporations invented the technology for one of the fastest growing products of recent times then miscalculated and mishandled the opportunity to fully exploit it It is a classic story of how innovation can fare within large corporate structures the real life odyssey of what can happen to an idea as it travels from inspiration to implementation More than anything Fumbling the Future is a tale of human beings whose talents hopes fears habits and prejudices determine the fate of our largest organizations and of our best ideas In an era in which technological creativity and economic change are so critical to the competitiveness of the American economy Fumbling the Future is a parable for our times

Fumbling in the Dark Chad Gillies, 2011-06-01 Description It took me 33 years to figure out that I was mentally ill yes that is my whole life I can't put my finger on the name of the disease I have but it wasn't until recently that I admitted to myself that without a doubt I am absolutely depressed dysfunctional angry or just plain mad From about the time I was five years old I started a process to deny my dysfunction The personality traits in my head would help me to avoid dealing with my problems by making everything on a grand scale the gods were running a muck and that was keeping me in denial It was feast or famine total happiness or complete hate flowing through me There was no balance Then by the time I was a teen I started to drink my fears away and hide in my dysfunction that way I got by on my charming personality until I married and found that my anger was even making its way through the booze So I quit drinking at gun point I thought that would solve all my problems Well it turned out that I was drinking because I was hiding from the anger not that I was getting angry about my drinking I was miserable so I started looking at why I was so miserable I went off on a spiritual way of life it was fantastic It gave me a healthy means to avoid admitting that I was sick There was no creation in my life I was dominated by fear and I started to work my way out of it The more I worked on myself the more I realized that I needed to write it was like alchemy the more of my feelings I got out on paper the better I felt Finally I was able to admit that I truly am mentally ill and nothing I could do would fix it until I admitted it and then started to transform it by writing My poetry is really just my feelings that are spewing up from that which has been deprived to long No magic no shine just words from my intimate self About the Author Chad Gillies was born in Red Deer Alberta May 09 1975 His father passed just 5 short years later causing an avalanche of dysfunction to be thrust upon the youngster He grew up in a home where fur coats were sometimes more important than food And liquor was easier than feeling He was always loud and somewhat charismatic and quite rebellious With all that going for him he found it very easy to fit into all the wrong circles Two short years later he

found himself with a new step father Always trying his best he looked for the approval of both his parents He was desperate he played their sports he ate their food he watched their shows and he did their chores He tried it all but he was miserable And nothing seemed to work As a teenager he found acceptance in a group of friends that had little in common The mutual thread they shared was each of their parents had absolutely no idea of who their kids really were They became tight They always stuck together and they bonded in beautiful dysfunction together Hiding from their pain they used drugs and alcohol on a near daily basis throughout middle and high school They learned to beg borrow and steal to fund their habits Chad did time in a juvenile detention centre which they say was easy time But of course he did not fit in there either Plagued with a quick temper and a completely different point of view he learned to use his humor to survive Chad went on the straight and narrow for a while except of course for the alcohol and drugs which sent him into a swirling depression and he nearly paid for it with his life In a state of complete desperation he attempted to end his life not once but twice His second attempt left him near death and unconscious for nearly 4 days When he awoke he was surrounded by the staff of a physician that quite simply did not understand the boy They again enabled Chad with more drugs so he could avoid feeling Chad was starting to feel well but felt he needed to get some things off his chest He confessed his whole life to Tammy in an attempt to lift his burden She could not handle all

Ancestral Shadows Russell Kirk, 2004

Widely regarded as the founder of the modern conservative movement Russell Kirk was a noted man of letters whose prodigious literary output included a syndicated newspaper column a regular page in National Review and many books This volume demonstrates another compelling side of Kirk the imaginative author who could communicate his powerful vision through the dramatic genre of the ghost story

Ancestral Shadows collects nineteen of Kirk's best ghostly tales from periodicals and anthologies published throughout his life In the tradition of Defoe Stevenson Hawthorne Coleridge Poe and other master writers these frightful stories conjure the creaks and shadows of the very places where they came to life through Kirk's pen haunted St Andrews the Isle of Eigg Kellie Castle Balcarres House Durie House which has the most persistent of all country house spectres and Kirk's own ancestral spooky house in Mecosta Michigan Full of fantastic gothic tales masterfully told the volume ends with a Cautionary Note on the Ghostly Tale an incisive piece in which Kirk reflects on why he writes such stories experiments in the moral imagination are what he is really after Ghost stories are not merely entertaining but possess a particular ability to capture the essential features of human nature of good and evil All important literature has some ethical end Kirk says and the tale of the preternatural as written by George MacDonald C S Lewis Charles Williams and other masters can be an
