The Political Geographies of Pregnancy Laura R. Woliver, 2010-10-01 A searing study of how modern reproductive politics shapes women's bodily agency. Pregnancy indisputably takes place within a woman's body. But as reproductive power finds its way into the hands of medical professionals, lobbyists, and policymakers, the geographies of pregnancy are shifting, and the boundaries need to be redrawn, argues Laura R. Woliver. *The Political Geographies of Pregnancy* is a vigorous analysis of the ways modern reproductive politics are shaped by long-standing debates on abortion and adoption, surrogacy arrangements, new reproductive technologies, medical surveillance, and the mapping of the human genome. Across a politically charged backdrop of reproductive issues, Woliver exposes strategies that claim to uphold the best interests of children, families, and women, but in reality, complicate women's struggles to have control over their own bodies. Utilizing feminist standpoint theory and promoting a feminist ethic of care, Woliver looks at abortion politics, modern adoption laws that cater to male-headed families, regulations that allow the state to monitor pregnant women but not always provide care for them, and the power structures behind the seemingly benign world of egg selling and surrogate parenting. She also considers the potentially staggering political implications of mapping the human genome and the exclusion of women's perspectives in discussions about legislation and advancements in reproductive technologies.

Out of the Shadows Linda Back McKay, 2012-09 Linda Back McKay shared the stories of women who gave up their babies for adoption during the 1960s and 1970s in her previous book *Shadow Mothers*. 1998 *Out of the Shadows* chronicles these women fifteen years later, having reconnected with the children they gave up long ago.
