Shadows of Nagasaki Chad R. Diehl, 2024-01-02 A critical introduction to how the Nagasaki atomic bombing has been remembered especially in contrast to that of Hiroshima In the decades following the atomic bombing of Nagasaki on August 9 1945 the city s residents processed their trauma and formed narratives of the destruction and reconstruction in ways that reflected their regional history and social makeup In doing so they created a multi layered urban identity as an atomic bombed city that differed markedly from Hiroshima s image *Shadows of Nagasaki* traces how Nagasaki s trauma history and memory of the bombing manifested through some of the city s many post atomic memoryscapes such as literature religious discourse art historical landmarks commemorative spaces and architecture In addition the book pays particular attention to how the city s history of international culture exemplified best perhaps by the region s Christian especially Catholic past informed its response to the atomic trauma and shaped its postwar urban identity Key historical actors in the volume s chapters include writers Japanese Catholic leaders atomic bombing survivors known as hibakusha municipal officials American occupation personnel peace activists artists and architects The story of how these diverse groups of people processed and participated in the discourse surrounding the legacies of Nagasaki s bombing shows how regional history

culture and politics rather than national ones become the most influential factors shaping narratives of destruction and reconstruction after mass trauma In turn and especially in the case of urban destruction new identities emerge and old ones are rekindled not to serve national politics or social interests but to bolster narratives that reflect local circumstances

compilation of this book is significant in this regard offering Japanese American Australian and European perspectives In doing so the essays here represent a complex series of interpretations of the bombing of Hiroshima and its implications both for history and for the present day From Kuznick s extensive biographical account of the Hiroshima bomb pilot Paul Tibbets and contentious questions about the moral and strategic efficacy of dropping the A bomb and how that has resonated through time to Jacobs reflections on the different ways in which Hiroshima and its memorialization are experienced today each chapter considers how this moment in time emerges persistently in public and cultural consciousness The discussions here are often difficult sometimes controversial and at times oppositional reflecting the characteristics of A bomb scholarship more broadly The aim is to explore the various ways in which Hiroshima is remembered but also to consider the ongoing legacy and impact of atomic warfare the reverberations of which remain powerfully felt **Shadows** Peter J.
