International Yearbook Graham Bradshaw, T. G. Bishop, Laurence Wright, 2009 The extended special section in the ninth issue of The Shakespearean International Yearbook investigates the uses to which Shakespeare's work was put in South Africa in the twentieth century The temporal limit emphasizes how the titanic political and ideological struggles that convulsed South Africa also affected how Shakespeare was studied interpreted taught and performed This issue also includes essays on Henry V garden scenes in Shakespeare and all male productions of As you Like It **Shakespeare's Originality**

Shakespeare Indoors Andrew Gurr, Farah Karim-Cooper, 2014-03-06 This book examines the conditions of the original performances in seventeenth century indoor theatres Playwright, Space and Place in Early Modern Performance Tim Fitzpatrick, 2016-04-22 Analyzing Elizabethan and Jacobean playtexts for their spatial implications this innovative study discloses the extent to which the resources and constraints of public playhouse buildings affected the construction of the fictional worlds of early modern plays The study argues that playwrights were writing with foresight inscribing the constraints and resources of the stages into their texts It goes further to posit that Shakespeare and his playwright

contemporaries adhered to a set of generic conventions rather than specific local company practices about how space and place were to be related in performance the playwrights constituted thus an overarching virtual company producing playtexts that shared features across the acting companies and playhouses By clarifying a sixteenth to seventeenth century conception of theatrical place Tim Fitzpatrick adds a new layer of meaning to our understanding of the plays His approach adds a new dimension to these particular documents which though many of them are considered of great literary worth were not originally generated for any other reason than to be performed within a specific performance context The fact that the playwrights were aware of the features of this performance tradition makes their texts a potential mine of performance information and casts light back on the texts themselves if some of their meanings are spatial these will have been missed by purely literary tools of analysis
