Long Term Care For The Elderly A Factbook:

Long-term Care for the Elderly David Rabin, Patricia Stockton, 1987 A comprehensive concise reference source on all topics relating to long term care for the elderly this book provides basic information on issues and legislation together with a compilation of significant national and regional data It covers functional disability health care expenditures and utilization home health care and community based services The final chapter which deals with the problems of population aging on an international level points out how the concerns of elderly persons are central to every industrialized country and how their growing numbers create a unique problem in the provision planning and allocation of resources ACLI Life Insurance Fact Book, 1999 Autonomy and Long-term Care George J. Agich, 1993 The realities and misconceptions of long term care and the challenges it presents for the ethics of autonomy are analyzed in this perceptive work While defending the concept of autonomy the author argues that the standard view of autonomy as non interference and independence has only a limited applicability for long term care He explains that autonomy should be understood as a comprehensiveness that defines the overall course of a person s life rather than as a way of responding to an isolated situation Agich distinguishes actual and ideal autonomy and argues that actual autonomy is better revealed in the everyday experiences of long term care than in dramatic conflict ridden paradigm situations such as decisions to institutionalize to initiate aggressive treatments or to withhold or to withdraw life sustaining treatments Through a phenomenological analysis of long term care he develops an ethical framework for it by showing how autonomy is actually manifest in certain structural features of the social world of long term care Throughout this timely work the rich sociological and anthropological literature on aging and long term care is referenced and the practical ethical questions of promoting and enhancing the exercise of autonomy are addressed

Studies of the Aged and Aging: Fact book on aging United States. Congress. Senate. Committee on Labor and Public Welfare, 1956 The I. I. I. Insurance Fact Book 2008, 2008 *Financial Services Fact Book* Insurance Information Institute, 2009 *The Old Age Challenge to the Biomedical Model* Charles F. Longino, 2020-11-25 Central to this book is the idea that the United States is in the midst of a health care crisis one that will be exacerbated as the population continues to age Longino and Murphy trace the philosophical and technological development of the biomedical model and show its inadequacy to deal with the massive chronic disease demand of the present and the future They argue that the delivery of health care will meet and survive the old age challenge only if the medical system is thoroughly democratized A more inclusive system must be devised that encourages a more reasonable allocation of resources gives more attention to prevention adopts a wider range of non medical interventions and invites citizens to become more involved in their own health care and the planning of services **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), **Health Care Politics, Policy, and Services** Tina Sacks, Emmeline Chuang, Angela Perone, 2025-11-15 The fourth edition illuminates the ethical practical and moral elements of how Americans distribute health care resources This textbook

offers a comprehensive overview of the U S health care system tracing its historical roots and examining how care is delivered and financed especially for older adults and individuals with disabilities It delves into key topics such as social determinants of health social epidemiology and the impact of racial inequities on health outcomes The content is framed through major social justice theories including Rawlsian Marxist Indigenous and Black feminist perspectives Contemporary issues like the COVID 19 pandemic and evolving reproductive health policies are used to ground these concepts in real world application What s New Revised chapters on justice theory disability aging and health care reform New content on reproductive health policy changes and inequities Updated data on U S health financing delivery and health disparities Enhanced instructor resources with learning objectives and assignments Key Features Explores U S health care systems using case studies theory and up to date data on equity access and public health Equips students with critical thinking and policy analysis skills to address injustice in health care Includes discussion questions key terms learning goals and real life case studies for student engagement Tina Sacks Emmeline Chuang and Angela Perone bring interdisciplinary expertise and a shared commitment to racial health and policy equity Remainder of Their Days Carolyn J. Rosenthal, Jon Hendricks, 2021-04-14 First published in 1993 This present volume co edited by two sociologists Jon Hendricks of the United States and Carolyn Rosenthal of Canada focuses on a comparative cross national discussion of social policies of the United States and Canada especially those related to health care The uniqueness o f this work lies in the fact that it views family experiences from both a Canadian and an American perspective In addition this book not only fills a gap in our know ledge of social policies but contributes to our understanding of how these policies shape and effect the lives o f older fam ilies in both countries Elder Care in Crisis Emily K. Abel, 2022-10-25 Explains why there is a crisis in caring for elderly people and how the COVID 19 pandemic exacerbated it Because government policies are based on an ethic of family responsibility repeated calls to support family members caring for the burgeoning elderly population have gone unanswered Without publicly funded long term care services many family caregivers cannot find relief from obligations that threaten to overwhelm them The crisis also stems from the plight of direct care workers nursing home assistants and home health aides most of whom are women from racially marginalized groups who receive little respect remuneration or job security Drawing on an online support group for people caring for spouses and partners with dementia Elder Care in Crisis examines the availability and quality of respite care which provides temporary relief from the burdens of care the long tortuous process through which family members decide whether to move spouses and partners to institutions and the likelihood that caregivers will engage in political action to demand greater public support When the pandemic began caregivers watched in horror as nursing homes turned into deathtraps and then locked their doors to visitors Terrified by the possibility of loved ones in nursing homes contracting the disease or suffering from loneliness some caregivers brought them home Others endured the pain of leaving relatives with severe cognitive impairments at the hospital door and the difficulties of sheltering

in place with people with dementia who could not understand safety regulations or describe their symptoms Direct care workers were compelled to accept unsafe conditions or leave the labor force At the same time however the disaster provided an impetus for change and helped activists and scholars develop a vision of a future in which care is central to social life Elder Care in Crisis exposes the harrowing state of growing old in America offering concrete solutions and illustrating why they are necessary **Fact Book on Aging** Elizabeth Vierck,1990 This book contains facts and statistics on every aspect of aging in America **The Injury Fact Book 2001-2002** ,2001 Life Insurance Fact Book ,2001 Mental Health Consultation in Nursing Homes Michael A. Smyer,Diane Brannon,Margaret D. Cohn,1990-12 The most complete book to date concerning the institutionalized care of the mentally ill elderly A compassionate comprehensive portrayal of the problems of caring for older persons by family members and nursing home staff Essential reading for all those working with the elderly Bertram J Cohler Committee on Human Development University of Chicago The real strength of this book lies in its initial conceptualization of the nursing home as a community with a community s complexity of forces working both for and counter to the best interests of its members contrasting the traditional view that the institution is the enemy of its residents M Powell Lawton Director of Research Philadelphia Geriatric Center This eminently readable book meets a long standing need in the field of mental health reflected in the fact that many nursing home residents suffer mental and emotional problems not infrequently the cause of their placement Rooted solidly in theory research and clinical evidence yet with a clear eye to practical applications this excellent book will appeal to scholars educators students administrators consultants and practitioners Barbara Silverstone Executive Director The Lighthouse This book come out at the right time in our return to a national discussion of the mental health needs of older adults Scholarly in breadth and thoroughness the authors draw on their wealth of practical experience to edify topics on the nursing home industry and its community of caregivers families and residents and on strategies for mental health consultation assessment and intervention It is thoughtfully written Carrell Wendland Ph D President Beverly Foundation Clinical Aspects of Aging William Reichel,1989 The Family Track Constance Coiner,Diana Hume George,1998 At a time when the academy is an ever more demanding arbiter and shaper of the lives of those it employs this book discusses the challenges and benefits of balancing a rewarding professional life with the competing needs to nurture children care for aging parents and engage in other personal relationships *Seniors and Squalor* Lisa Johnson,2018-10-25 This book will help readers to better understand and address a strange social phenomenon the apparent choice by some seniors to live in squalor Seniors and Squalor examines the widespread and growing phenomenon of mentally competent senior citizens living in self imposed squalor and refusing help whether from health care professionals government or family At this juncture of medicine and law many families have experienced frustration embarrassment and heartbreak The book also explores associated ethical questions arguing that society can address the problem while respecting individual legal autonomy For the theorist this work provides the first in depth treatment of legal

and political theory questions undergirding the issue of self neglect by seniors It also underscores the importance of limited government the necessity of granting American citizens their individual rights and the critical need to stop classifying self neglect as abuse This is an ideal read for graduate and undergraduate students scholars practitioners of health care and geriatrics social workers and lawyers Most importantly this book will appeal to those directly affected by the problem family friends and social work professionals by giving them a broader understanding of this complex social issue and how to best respond to it **Agriculture Fact Book** ,2000 **Fact Book on Aging** National Council on the Aging. Research and Evaluation Department,Charles Stanley Harris,1978
