Environmental History in the Pacific World J.R. McNeill, 2022-03-01 This volume brings together a set of key articles from the last 30 years pertaining to the environmental history of the Pacific basin It aims to treat the islands and waters of the Pacific as well as the lands around the Rim from New Zealand to Japan to California to Chile and is the first work of environmental history to take this inclusive view of the Pacific basin The focus is mainly on recent centuries but as environmental history requires at times the work also takes the very long view of millennia Several of the articles seek to bring a broad Pacific perspective to bear on their subjects while others use Pacific basin examples to try to establish broader theoretical points of interest to all who are drawn to the study of the interactions between nature and culture The book includes a bibliography of Pacific basin environmental history and an introduction that aims to sketch the contours and possible future directions of the field

Historical Dictionary of Australia Norman Abjorensen, James C. Docherty, 2014-12-05

Australia's development from the most unpromising of beginnings as a British prison in 1788 to the prosperous liberal democracy of the present is as remarkable as is its success as a country of large scale immigration. Since 1942 it has been a loyal ally of the United States and has demonstrated this loyalty by contributing troops to the war in Vietnam and by being part of the coalition of the willing in the U.S. invasion of Iraq in 2003 and in operations in Afghanistan. In recent years it has also been more willing to promote peace and democracy in its Pacific and Asian neighbors. This fourth edition of *Historical Dictionary of Australia* covers its history through a chronology, an introductory essay, appendixes and an extensive bibliography. The dictionary section has over 500 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about Australia.

Off the Plan Caryl Bosman, Aysin Dedekorkut-Howes, Andrew Leach, 2016. The Gold Coast is a well known and loved destination for local and international tourists: a city of surf and sun, pleasure and leisure. However, it is also one of the fastest growing cities in Australia, occupying the largest urban footprint outside the state capitals.

Watershed Anika Gauja, Marian Sawyer, Jill Sheppard, 2023-08-10. Australia's 2022 federal election played out in ways that few could have expected. Not only did it bring a change of government, it also saw the lowest number of primary votes for the major parties and the election of the greatest number of Independents to the lower house since the formation of the Australian party system. The success of the Teal Independents and the Greens, along with the appetite voters showed for doing politics differently, suggested that the dominant model of electoral competition might no longer be the two-party system of Labor versus Liberal. At the very least, the continued usefulness of the two-party preferred vote as a way of conceptualising and predicting Australians' voting behaviour has been cast into serious doubt. In *Watershed*, leading scholars analyse the election from the ground up, focusing on the campaign issues, the actors involved, and the successes and failures of campaign strategy, and show how digital media, visual politics, and fake news are changing the way politics is done. Other topics include the impact of COVID-19 and the salience of climate, gender, and integrity issues, as well as voting patterns and polling accuracy. This authoritative book is indispensable for understanding the disenchantment with the major parties, the rise of Community Independents, and the role of the Australian Greens and third parties. *Watershed* is the eighteenth in the ANU Press federal election series and the tenth sponsored by the Academy of the Social Sciences in Australia.

Girt by Sea Rebecca Strating, Joanne Wallis, 2024-04-03. A clear

eyed examination of how Australia should approach the complex security challenges at play in its maritime domain Security starts at home Australia has drawn closer to many of its Asia Pacific neighbours in recent years but when push comes to shove it continues to look well beyond the oceans and regions that surround it to the distant horizons of Europe and North America for its ultimate security guarantee In Girt by Sea international relations experts Rebecca Strating and Joanne Wallis instead turn their gazes to Australia's near region focusing on the six maritime domains central to its national interests the north seas the Timor Arafura and Coral Seas and the Torres Strait the Western Pacific the South China Sea the South Pacific the Indian Ocean and the Southern Ocean In so doing they reimagine how Australia should understand its strategic challenges and find lasting security **Australian national bibliography** ,1961
