Emergence: Lester Churchill, 2019-12-18 If you're like most people you've encountered issues in your life that persist and if you only knew how to solve it you would without hesitation You've probably encountered people who have told you things like just let it go only to find that you don't know how even though you would

dearly love to do it This book walks you step by step through the MATISH process created by Lester Churchill a childhood trauma childhood poverty and combat zone survivor who spent more than 40 years searching for the answers in his own life After finishing his Bachelor of Science Degree in Psychology at Washington State University he compiled his findings after discovering each component of his model was backed by research each component already being used by many people around the world to heal parts of their lives It holds the promise of allowing people to heal their whole selves why not take a peek inside and see what it can do for you **You Are Probability: Surfing The Matrix** Andrea Diem-Lane, David Christopher Lane, 2014-03-15 Just think of your father s sperm as a starting off point A usual male produces about 100 million sperm per ejaculation Only one of those sperm will survive the arduous journey to its terminal apex How many sperm does a male produce in say an 80 year life span No precise count is possible since it varies with each individual but one can roughly estimate the number to be around 500 billion or perhaps more impressive sounding as a 1 2 trillion If your own father had five children this would mean that just in terms of sperm you are a 1 in a 100 billion winner Couple this with the rarity of your mother s egg of the nearly half million follicles where only about 400 or so will become viable and the very fact that you are alive reading this essay is beyond any moneyed lottery you will ever enter **Tough Topics in Shape and Angle** Peter Patilla, 2003
