Looking At China:

Looking for Balance Steve Chan, 2013-07-15 Debate surrounding China's rise and the prospects of its possible challenge to America's preeminence has focused on two questions whether the United States should contain or engage China and whether the rise of Chinese power has inclined other East Asian states to balance against Beijing by alignment with the United States or ramping up their military expenditures By drawing on alternative theoretic approaches most especially balance of threat theory political economic theory and theories of regime survival and economic interdependence Steve Chan is able to create an explanation of regional developments that differs widely from the traditional strategic vision of national interest He concludes that China's primary aim is not to match U.S. military might or the foreign policy influence that flows from that power and that its neighbors are not balancing against its rising power because in today's guns versus butter fiscal reality balancing policies would entail forfeiting possible gains that can accrue from cooperation economic growth and the application of GDP to nonmilitary ends Instead most East Asian countries have collectively pivoted to a strategy of elite legitimacy and regime survival based on economic performance

The Urban Code of China Dieter Hassenpflug, 2012-12-13 When reading the Chinese city which this book sets out to do it is not the well known cities such as Beijing Shanghai and Xi'an that are in the focus of attention but rather the essentially Chinese of the Chinese city those characteristics or attributes that are more or less shared by all Chinese cities The spotlight is on their spatial grammar their syntax in short their code Only by deciphering their common traits a view to the underlying structure of Chinese cities is opened and we can begin to reasonably evaluate and classify the diversity of impressions Deciphering the code of the Chinese city also enables the author to read new Chinese towns designed by Western architects Thus readers are provided with valuable insight on China's booming urbanization and urban development

Perspectives on Modern China Kenneth Lieberthal, 1991 The conveners the editors of this book of the September 1989 Four Anniversaries China Conference in Annapolis asked the contributors to look back from that point in time to consider four major events in modern Chinese history in the perspective of the rapid changes that were shaping the Chinese society economy polity and sense of place in the world in the 1980s a time when China was making rapid strides toward becoming more integrated with the outside world With contributions by distinguished scholars in the field the four anniversaries considered are the High Qing the May Fourth Movement forty years of communism in China and ten years of the Deng era

Passage to China John Elliot Bingham, 1842 China Anthony Paul, 2012 History is marked by great moments of human achievement of epic triumph against all odds and China's Long March was one of the most momentous For two years from 1934 to 1936 the Red Army retreated across the wilds of China battling nationalist forces and struggling to stay alive in impossibly harsh conditions This book revisits the original route of the Long March and portrays the country today through the eyes of a celebrated team of Chinese and international photographers Their images capture the people and places of modern day China as it rushes into the 21st century while holding onto traditions from past centuries and honouring the spirit of the Long March For over 75 years the Chinese people have looked to the story of the Long March for inspiration This unique and visually breathtaking insight into a country that has undergone monumental change over the past 75 years and an uplifting and at times moving portrait of the ordinary people adapting in the face of change Narrative of the Expedition to China, from the Commencement of the War to the Present Period; with Sketches of the Manners and Customs of that Singular and Hitherto Almost Unknown Country J. Elliot Bingham, 1842 The China Review, Or, Notes and Queries on the Far East, 1874
