Congress. House. Committee on Appropriations. Subcommittee on Homeland Security,2009 Silent Cells Anthony Ryan Hatch,2019-04-30 A critical investigation into the use of psychotropic drugs to pacify and control inmates and other captives in the vast U S prison military and welfare systems For at least four decades U S prisons and jails have aggressively turned to psychotropic drugs antidepressants antipsychotics sedatives and tranquilizers to silence inmates whether or not they have been diagnosed with mental illnesses In Silent Cells Anthony Ryan Hatch demonstrates that the pervasive use of psychotropic drugs has not only defined and enabled mass incarceration but has also become central to other forms of captivity including foster homes military and immigrant detention centers and nursing homes Silent Cells shows how in shockingly large numbers federal state and local governments and government authorized private agencies pacify people with drugs uncovering patterns of institutional violence that threaten basic human and civil rights Drawing on

publicly available records Hatch unearths the coercive ways that psychotropics serve to manufacture compliance and docility practices hidden behind layers of state secrecy medical complicity and corporate profiteering Psychotropics Hatch shows are integral to technocorrectional policies devised to minimize public costs and increase the private profitability of mass captivity while guaranteeing public safety and national security This broad indictment of psychotropics is therefore animated by a radical counterfactual question would incarceration on the scale practiced in the United States even be possible without psychotropics
