Circle Gardening Kenneth E Spaeth,2018-01-29 As more people become concerned with food safety as well as the environment vegetable gardening offers an opportunity to grow produce at home Not everyone has the time money or energy to take on the challenge of starting a vegetable garden however In *Circle Gardening* Kenneth E Spaeth Jr a soil and ecosystem specialist provides a fresh approach and thorough guide to vegetable gardening for all gardeners experienced and beginner alike Through years of experimentation Spaeth has found circle gardening an ancient method as old as agriculture to be not only an efficient but also an aesthetically pleasing way to grow plants By arranging them in a concentrated circle rather than in rows gardeners are able to conserve compost fertilizer and water Depending on the number of vegetables planted this design can save time and be less physically demanding The rationale for planting your veggies in a circle is scientific too many plants clump together in nature and thrive in groups and so planting in circles actually mimics natural plant distribution There are other questions that befuddle expert and beginner
