Serials in the British Library ,2001 **America's Newcomers and the Dynamics of Diversity** Frank D. Bean, Gillian Stevens, 2003-05-01 The attacks of September 11 2001 facilitated by easy entry and lax immigration controls cast into bold relief the importance and contradictions of U S immigration policy Will we have to restrict immigration for fear of future terrorist attacks On a broader scale can the country's sense of national identity be maintained in the face of the cultural diversity that today's immigrants bring How will the resulting demographic social and economic changes affect U S residents As the debate about immigration policy heats up it has become more critical than ever to examine immigration's role in our society With a comprehensive social scientific assessment of immigration over the past thirty years America's Newcomers and the Dynamics of Diversity provides the clearest picture to date of how immigration has actually affected the United States while refuting common misconceptions and predicting how it might affect us in the future Frank Bean and Gillian Stevens show how on the whole immigration has been beneficial for the United States Although about one million immigrants arrive each year the job market has expanded sufficiently to absorb them without driving down wages significantly or preventing the native born population from finding jobs Immigration has not led to welfare dependency among immigrants nor does evidence indicate that welfare is a magnet for immigrants With the exception of unauthorized Mexican and Central American immigrants studies show that most other immigrant groups have attained sufficient earnings and job mobility to move into the economic mainstream Many Asian and Latino immigrants have established ethnic networks while maintaining their native cultural practices in the pursuit of that goal While this phenomenon has led many people to believe that today's immigrants are slow to enter mainstream society Bean and Stevens show that intermarriage and English language proficiency among these groups are just as high if not higher as among prior waves of European immigrants America's Newcomers and the Dynamics of Diversity concludes by showing that the increased racial and ethnic diversity caused by immigration may be helping to blur the racial divide in the United States transforming the country from a biracial to multi ethnic and multi racial society Replacing myth with fact America's Newcomers and the Dynamics of Diversity contains a wealth of information and belongs on the bookshelves of policymakers pundits scholars students and anyone who is

Diversity and Aging Among Immigrant Seniors in Canada Douglas Durst,Michael MacLean,2010-01-01 Historically Canada has been a nation of immigrants with 16 20% of its citizens being foreign born Most immigrant research addresses

the issues of integration and adjustment of young and adult immigrants with little work on aging There are numerous books on immigrants and books on aging but there are few that have considered the topics of both diversity and aging Diversity and Aging among Immigrant Seniors in Canada breaks from that tradition and offers an eclectic collection of original research from among Canada's leading researchers on aging and immigrants Some researchers refer to this emerging field as Ethno gerontology There are two interesting groups of immigrant seniors those who entered Canada at over 65 years of age and those who aged in Canada Most Canadians are surprised to learn that the senior population of seniors has a higher percentage of immigrants 19.6% than the general population 13.7% As Canadians age the country's composition of immigrant seniors has also changed from mainly European to greater cultural and ethnic diversity from Africa and Asia This cultural and ethnic diversity has social health economic policy implications and impacts on programs and services delivered to seniors Diversity and Aging among Immigrant Seniors in Canada is divided into two main sections In Part 1 the chapters explore general and universal issues such as national trends and demographics theoretical orientations issues of culture and legal dimensions poverty and income and end of life care In Part 2 the chapters examine issues pertaining to specific ethnic groups For example there are chapters on the social well being of Chinese immigrants determinants of mental health for Iranian seniors family dynamics for aging Haitian elders and emerging issues for Punjabi families Diversity and Aging among Immigrant Seniors in Canada offers both breadth and depth to the topic of aging among immigrants and is a must read for social work and health care professionals students in health and social services policy and program planners and families of aging immigrants It is written in a language that crosses disciplines shedding professional jargon making it an informative and engaging read for professionals researchers and the general public
