imaginary upon which the consensus politics of the post war years was built In the process of mobilizing race as an ideological articulator of the exit from consensus politics the New Right has promoted a new form of racism qualitatively distinct from more traditional forms Challenging Racism in Britain and Germany Z. Layton-Henry,C. Wilpert,2003-03-13 This collection analyses some of the factors that contribute to racism and exclusion in Britain and Germany such as citizenship laws racial violence discrimination in education and employment anti semitism and the rise of the far right Strategies to combat racism racist violence and discrimination in Britain are described and analysed and proposals for anti discrimination legislation in Germany are considered **The Other Special Relationship** R. Kelley,S. Tuck,2015-06-22 The close diplomatic economic and military ties that comprising the special relationship between the United States and Great Britain have received plenty of attention from historians over the years Less frequently noted are the countries shared experiences of empire white supremacy racial inequality and neoliberalism and the attendant struggles for civil rights and political reform that have marked their recent history This state of the field collection traces the contours of this other special relationship exploring its implications for our understanding of the development of an internationally interconnected civil rights movement Here scholars from a range of research fields contribute essays on a wide variety of themes from solidarity protests to calypso culture to white supremacy *Anti-Racist Movements in the EU* Stefano Fella,Carlo Ruzza,2012-11-14 Based on extensive primary research including interviews with movement and policy actors across six European countries this book examines anti racist movements throughout Europe focusing on how they influence culture and government policy at national and EU level shedding light on the nature of racism and responses to it across Europe Commission for Racial Equality Ray Honeyford,2017-11-30 In the United Kingdom as in the United States race relations are surrounded with taboos defined by the politically correct concepts of what Ray Honeyford calls the race relations lobby This lobby championed by the Commission for Racial Equality CRE has a vested interest in depicting the United Kingdom as a society rotten with endemic racism and its ethnic minorities as victims doomed to failure An outgrowth of the Race Relations Act of 1976 the Commission was founded in response to worthy concerns about race and patterned after its American prototype the Congress of Racial Equality Its constant demands for increased powers have only increased with the coming into power of the New Labour Party That makes Ray Honeyford s critique all the more urgent Honeyford exposes the policies and practices of the Commission to public view encouraging informed debate about its need to exist The CRE possesses considerable legal powers powers which seriously undermine the great freedoms of association contract and speech as sociated with the United Kingdom Without denying the presence of racial prejudice Honeyford shows that the picture of the United Kingdom as a divisive nation is a serious misrepresentation Placing the CRE in its historical and political context Honeyford outlines its powers and analyzes its formal investigations in the fields of education employment and housing He also examines its publicity machine and its effect on public and educational libraries He points out the

danger of uncritically replicating the American experience According to Honeyford Americans have replaced a melting pot notion of society with all citizens loyal to a national ideal with a tossed salad concept which encourages the creation of self conscious separate and aggressive ethnic groups each claiming special access to the public purse and having little regard for national cohesion and individual liberties

Race Politics in Britain and France Erik Bleich,2003-05-26 Britain and France have developed substantially different policies to manage racial tensions since the 1960s in spite of having similar numbers of post war ethnic minority immigrants This book provides the first detailed historical exploration of race policy development in these two countries In this path breaking work Bleich argues against common wisdom that attributes policy outcomes to the role of powerful interest groups or to the constraints of existing institutions instead emphasizing the importance of frames as widely held ideas that propelled policymaking in different directions British policymakers framing of race and racism principally in North American terms of color discrimination encouraged them to import many policies from across the Atlantic For decades after WWII by contrast French policy leaders framed racism in terms influenced largely by their Vichy past which encouraged policies designed primarily to counter hate speech while avoiding the recognition of race found across the English Channel
