Race Of The Century:

Nobility and the Making of Race in Eighteenth-Century Britain Tim Mc Inerney, 2023-09-07 Nobility and the Making of Race in Eighteenth Century Britain focuses on 18th century Britain and Ireland at a time when race theory as we know it today was steadily emerging in the realm of natural philosophy to examine the structural relationship between nobility and race This ground breaking book examines texts from the fields of naturalism political philosophy medicine and colonial venture as well as interrogating works of drama and literature in order to track how climate based understandings of human variety at this time became increasingly imbued with noble traditions of genealogical purity and hierarchies of descent This process the book argues allowed British naturalists and wider society to understand global populations according to an already familiar pattern of genealogical inequality and offered the proponents of race theory a ready made model of natural supremacy In this highly original and meticulously researched book Tim McInerney explains why nobility and race developed in the way they did and how the premise of each promoted a certain idea of superiority The result is a necessary in depth understanding of how genealogical exclusivity works as a power strategy vital to students and scholars alike

Race in the 21st Century John Hartigan (Jr.), 2015 What is the state of race relations in the U S Are we making progress toward ending racial discrimination and prejudice What exactly does race mean In *Race in the 21st Century* Ethnographic Approaches Second Edition John Hartigan Jr takes an anthropological look at such questions by introducing students to the study of race through qualitative methods In the first text to take an explicitly ethnographic approach Hartigan summarizes and explains the current state of social science knowledge on race in the U S motivating students to think through essential questions about race in relation to their own lives In contrast with many texts *Race in the 21st Century* focuses not on essential differences between racial or ethnic groups but rather on the commonalities Hartigan concentrates on the particular contexts in which people actively engage and respond to racial meanings and identities In this way he encourages readers to think critically about the meaning of race The second edition of *Race in the 21st Century* features a new chapter Postracial America which examines contentious arguments about whether or how race still matters in the U S today It engages students fully in the important question of what postracial America might mean or look like

W.E.B. Du Bois and the Problems of the Twenty-First Century , *Blacks and Blackness in European Art of the Long Nineteenth Century* AdrienneL. Childs, 2017-07-05 Compelling and troubling colorful and dark black figures served as the quintessential image of difference in nineteenth century European art the essays in this volume further the investigation of constructions of blackness during this period This collection marks a phase in the scholarship on images of blacks that moves beyond undifferentiated binaries like negative and positive that fail to reveal complexities contradictions and ambiguities Essays that cover the late eighteenth through the early twentieth century explore the visibility of blackness in anti slavery imagery black women in Orientalist art race and beauty in fin de si e photography the French brand of blackface minstrelsy

and a set of little known images of an African model by Edvard Munch In spite of the difficulty of resurrecting black lives in nineteenth century Europe one essay chronicles the rare instance of an American artist of color in mid nineteenth century Europe With analyses of works ranging from Gault's Raft of the Medusa to portraits of the American actor Ira Aldridge this volume provides new interpretations of nineteenth century representations of blacks

Pindar and the Construction of Syracusan Monarchy in the Fifth Century B.C. Kathryn A. Morgan, 2015-01-02 This groundbreaking book attempts a fully contextualized reading of the poetry written by Pindar for Hieron of Syracuse in the 470s BC It argues that the victory odes and other occasional songs composed by Pindar for the Sicilian tyrant were part of an extensive cultural program that included athletic competition coinage architecture sanctuary dedication city foundation and much more In the tumultuous years following the Persian invasion of Greece in 480 elite Greek leaders and their cities struggled to capitalize on the Greek victory and to define themselves as free peoples who triumphed over the threat of Persian monarchy Pindar's victory odes are an important contribution to Hieron's goal of panhellenic pre eminence redescribing contemporary tyranny as an instantiation of golden age kingship and consonant with best Greek tradition In a delicate process of cultural legitimation the poet's praise deploys

athletic victories as a signs of more general preeminence Three initial chapters set the stage by presenting the history and culture of Syracuse under the Deinomenid tyrants exploring issues of performance and patronage and juxtaposing Hieron to rival Greek leaders on the mainland Subsequent chapters examine in turn all Pindar s preserved poetry for Hieron and members of his court and contextualizes this poetry by comparing it to the songs written for Hieron by Pindar s poetic contemporary Bacchylides These odes develop a specifically tyrannical mythology in which a hero from the past enjoys unusual closeness with the gods only to bring ruin on him or herself by failing to manage this closeness appropriately Such negative exemplars counterbalance Hieron s good fortune and present the dangers against which he must and does protect himself by regal virtue The readings that emerge are marked by exceptional integration of literary interpretation with the political historical context

W. E. B. Du Bois and the Problems of the Twenty-First Century Reiland Rabaka,2008-04-29 W E B Du Bois and the Problems of the Twenty First Century utilizes Du Bois s thought and texts to develop an informed critical theory of contemporary society This book broadens the base of critical theory making it more multicultural transethnic transgender and non Western European philosophy focused by placing it in dialogue with theory and phenomena that had been heretofore woefully neglected Taking the preeminent black intellectual of the twentieth century as his primary point of departure Reiland Rabaka identifies and analyzes several key contributions that Du Bois and the black racial tradition offer to those interested in redeveloping and racially revising contemporary critical social theory With chapters on critical race theory postcolonial theory feminism and Marxism this volume builds bridges from Africana Studies to disparate discursive communities accessibly demonstrating Du Bois s and the black radical tradition s contributions to and the potential impact on a wide range of new social scientific research and radical political struggles

Twentieth-Century Multiplicity Daniel H. Borus, 2011-12-12 The book describes the ways in which American thinkers and artists in the first two decades of the twentieth century challenged notions that a single principle explained all relevant phenomena opting instead for a pluralistic world in which many truths goods and beauties coexisted It argues that the bracketing of the idea that all knowledge was integrated allowed for a new appreciation of the importance of context and contingency
