Lyman, 2001 Recognizing Race and Ethnicity Kathleen J. Fitzgerald, 2014-02-18 Despite radical changes over the last century race remains a central organizing principle in U S society a key arena of inequality and the subject of ongoing conflict and debate In a refreshing new introduction to the sociology of race Recognizing Race and Ethnicity encourages students to think differently by challenging the notion that we are or should even aspire to be color blind In this text Kathleen Fitzgerald considers how the continuing significance of race manifests in both significant and obscure ways by looking across all racial ethnic groups within the socio historical context of institutions and arenas rather than discussing each group by group Incorporating recent research and contemporary theoretical perspectives she guides students to examine racial ideologies and identities as well as structural racism at the same time she covers topics like popular culture sports and interracial relationships that will keep students engaged Recognizing Race and Ethnicity provides unparalleled coverage of white privilege while remaining careful to not treat white as the norm against which all other groups are defined Recognizing Race and Ethnicity makes it clear that in a time when race and racism are constantly evolving in response to varied social contexts societal demands and political climates we all must learn to recognize race if we are to get beyond it
