Handbook of Research on Race, Gender, and the Fight for Equality Prescott, Julie, 2016-03-31 Diversity in the workforce can be attributed to both a popular cultural shift and legislative intervention. Despite these forces, discrimination endures in all aspects of Western society, from education to employment. Unequal pay and opportunities for promotion are symptoms of a systematic discrimination of individuals based on race and gender. The *Handbook of Research on Race, Gender, and the Fight for Equality* provides a critical look at race, gender, and modern-day discrimination. Focusing on workplace and educational dynamics, the research found within this book addresses equal opportunity and diversity requirements from a myriad of perspectives. This book is an essential reference source for professionals and researchers working in equality, as well as managers and those in leadership roles.
