Race Housing And Social Excellence:

Social Housing and Urban Renewal Paul Watt,Peer Smets,2017-08-15 Contemporary urban renewal is the subject of intense academic and policy debate regarding whether it promotes social mixing and spatial justice or instead enhances neoliberal privatization and state led gentrification This book offers a cross national perspective on contemporary urban renewal in relation to social rental housing Crossing the Class and Color Lines Leonard S. Rubinowitz,James E. Rosenbaum,2002-04-15 Thousands of low income African Americans mostly women and children began in 1976 to move out of Chicago s notorious public housing developments to its mostly white middle class suburbs They were part of the Gautreaux program one of the largest court ordered desegregation efforts in the country s history Named for the Chicago activist Dorothy Gautreaux the program formally ended in 1998 but is destined to play a vital role in national housing policy in years to come In this book Leonard Rubinowitz and James Rosenbaum tell the story of this unique experiment in racial social and economic integration and examine the factors involved in implementing and sustaining mobility based programs Today with vouchers replacing public housing the Gautreaux success story with its strong legacy is the most valuable record of the possibilities for poor people to enhance their life chances by relocating to places where opportunities are greater Book Jacket

Race and the University George Henderson,2012-10-11

In 1967 George Henderson the son of uneducated Alabama sharecroppers accepted a full time professorship at the University of Oklahoma despite his mentor s warning to avoid the redneck school in a backward state Henderson became the university s third African American professor a hire that seemed to suggest the dissolving of racial divides However when real estate agents in the university town of Norman denied the Henderson family their first three choices of homes the sociologist and educator realized he still faced some formidable challenges In this stirring memoir Henderson recounts his formative years at the University of Oklahoma during the late 1960s and early 1970s He describes in graphic detail the obstacles that he and other African Americans faced within the university community a place of white privilege black separatism and campus wide indifference to bigotry As an adviser and mentor to young black students who wanted to do something about these conditions Henderson found himself at the forefront of collective efforts to improve race relations at the university Henderson is quick to acknowledge that he and his fellow activists did not abolish all vestiges of racial oppression But they set in motion a host of institutional changes that continue to this day In Henderson s words we were ordinary people who sometimes did extraordinary things Capturing what was perhaps the most tumultuous era in the history of American higher education Race and the University includes valuable recollections of former student activists who helped transform the University of Oklahoma into one of the nation s most diverse college campuses
