Migrants, Immigration and Diversity in Twentieth-century Northern Ireland Jack Crangle, 2023-01-01 Addressing questions about what it means to be British or Irish in the twenty first century this book focuses its attention on twentieth century Northern Ireland and demonstrates how the fragmented and disparate nature of national identity shaped and continues to shape responses to social issues such as immigration Immigrants moved to Northern Ireland in their thousands during the twentieth century continuing to do so even during three decades of the Troubles a violent and bloody conflict that cost over 3 600 lives Foregrounding the everyday lived experiences of settlers in this region this ground breaking book comparatively examines the perspectives of Italian Indian Chinese and Vietnamese migrants in Northern Ireland outlining the specific challenges of migrating to this small intensely divided part of the UK The book explores whether it was possible for migrants and minorities to remain neutral within an intensely politicised society and how internal divisions affected the identity and belonging of later generations An analysis of diversity and immigration within this divided society enhances our

understanding of the forces that can shape conceptions of national insiders and outsiders not just in the UK and Ireland but across the world It provokes and addresses a range of questions about how conceptions of nationality race culture and ethnicity have intersected to shape attitudes towards migrants In doing so the book invites scholars to embrace a more diverse four nation approach to UK immigration studies making it an essential read for all those interested in the history of migration in the UK **Britain's Experience of Empire in the Twentieth Century** Andrew Thompson,2016-11-24

Written by specialists from various fields this edited volume is the first systematic investigation of the impact of imperialism on twentieth century Britain The contributors explore different aspects of Britain s imperial experience as the empire weathered the storms of the two world wars was subsequently dismantled and then apparently was gone How widely was the empire s presence felt in British culture and society What was the place of imperial questions in British party politics Was Britain s status as a global power enhanced or underpinned by the existence of its empire What was the relation of Britain s empire to national identities within the United Kingdom The chapters range widely from social attitudes to empire and the place of the colonies in the public imagination to the implications of imperialism for demography trade party politics and political culture government and foreign policy the churches and civil society and the armed forces The volume also addresses the fascinating yet complex question of how after the formal end of empire the colonial past has continued to impinge upon our post colonial present as contributors reflect upon the diverse ways in which the legacies of empire are interpreted and debated in Britain today **Female Subjectivities in African Literature** Smith, Charles,Ce,

Chin,2015-09-23 In literature the ambiguous portraiture of female characters by some male writers and the phallic nature of men s writings have proved a matter of concern to female writers in Africa For decades within African writing the issue of silencing was interrogated particularly as it addressed the muting and marginalisation of black women by male writers through the script of patriarchy which men follow In this series we continue the literary and dramatic tradition of feminist concern for women s issues and we review novels plays and poetry which demonstrate a commitment to exploring the challenges facing modern women in changing times and excerpting the issues of gender feminism identity race history national and international politics specifically as they affect women Female Subjectivities collectively answers the need to question and adumbrate the possibilities of literary revisions showing what it would mean to revise even the Feminist psychoanalyst in a discourse on the subjectivity of women of colour **Migrant City** Panikos Panayi,2020-04-07 The first history of London to show how immigrants have built shaped and made a great success of the capital city London is now a global financial and multicultural hub in which over three hundred languages are spoken But the history of London has always been a history of immigration Panikos Panayi explores the rich and vibrant story of London from its founding two millennia ago by Roman invaders to Jewish and German immigrants in the Victorian period to the Windrush generation invited from Caribbean countries in the twentieth century Panayi shows how migration has been fundamental to London s

economic social political and cultural development br Migrant City sheds light on the various ways in which newcomers have shaped London life acting as cheap labour contributing to the success of its financial sector its curry houses and its football clubs London s economy has long been driven by migrants from earlier continental financiers and more recent European Union citizens Without immigration fueled by globalization Panayi argues London would not have become the world city it is today

Civic Hopes and Political Realities S. Karthick Ramakrishnan,Irene Bloemraad,2008-07-10 For many Americans participation in community organizations lays the groundwork for future political engagement But how does this traditional model of civic life relate to the experiences of today s immigrants Do community organizations help immigrants gain political influence in their neighborhoods and cities In Civic Hopes and Political Realities experts from a wide range of disciplines explore the way civic groups across the country and around the world are shaping immigrants quest for political effectiveness Civic Hopes and Political Realities shows that while immigrant organizations play an important role in the lives of members their impact is often compromised by political marginalization and a severe lack of resources S Karthick Ramakrishnan and Irene Bloemraad examine community organizations in six cities in California and find that even in areas with high rates of immigrant organizing policymakers remain unaware of local ethnic organizations Looking at new immigrant destinations Kristi Andersen finds that community organizations often serve as the primary vehicle for political incorporation a role once played by the major political parties Floris Vermeulen and Maria Berger show how policies in two European cities lead to very different outcomes for ethnic organizations Amsterdam s more welcoming multicultural policies help immigrant community groups attain a level of political clout that similar organizations in Berlin lack Janelle Wong Kathy Rim and Haven Perez report on a study of Latino and Asian American evangelical churches While the church shapes members political views on issues such as abortion and same sex marriage church members may also question the evangelical movement s position on such issues as civil rights and immigration Els de Graauw finds that many non profit organizations without explicitly political agendas nonetheless play a crucial role in advancing the political interests of their immigrant members Recent cuts in funding for such organizations she argues block not only the provision of key social services but also an important avenue for political voice Looking at community organizing in a suburban community Sofya Aptekar finds that even when immigrant organizations have considerable resources and highly educated members they tend to be excluded from town politics Some observers worry that America s increasing diversity is detrimental to civic life and political engagement Civic Hopes and Political Realities boldly advances an alternative understanding of the ways in which immigrants are enriching America s civic and political realms even in the face of often challenging circumstances
