Youth Violence Catherine Ward, Andrew Dawes, Amelia van der Merwe, 2012-01-25 Youth violence Sources and solutions in South Africa thoroughly and carefully reviews the evidence for risk and protective factors that influence the likelihood of young people acting aggressively Layers of understanding are built by viewing the problem from a multitude of perspectives including the current situation in which South African youth are growing up perspectives from developmental psychology the influences of race class and gender and of the media The book then reviews the evidence for effective interventions in the contexts of young people s lives their homes their schools their leisure activities with gangs in the criminal justice system in cities and neighbourhoods and with sexual offenders In doing so thoughtful suggestions are made for keeping an evidence based perspective while necessarily adapting interventions for developing world contexts such as South Africa Youth violence in South Africa Sources and solutions is a valuable addition to the library of anyone who has ever wondered about youth violence or wanted to do something about it

Africa's Peacemakers Adekaye Adebajo, 2014-02-13 As Africa and its diaspora commemorate fifty years of post independence Pan Africanism this unique volume provides profound insight into the thirteen prominent individuals of African descent who have won the Nobel Peace Prize since 1950 From the first American president of African descent Barack Obama whose career was

inspired by the civil rights and anti apartheid struggles promoted by fellow Nobel Peace laureates Martin Luther King Jr Nelson Mandela Desmond Tutu and Albert Luthuli to influential figures in peacemaking such as Ralph Bunche Anwar Sadat Kofi Annan and F W De Klerk as well as Ellen Johnson Sirleaf Leymah Gbowee Wangari Maathai and Mohamed El Baradei who have been variously involved in women s rights environmental protection and nuclear disarmament Africa s Peacemakers reveals how this remarkable collection of individuals have changed the world for better or worse *The New Black Middle Class in South Africa* Roger Southall,2016 Provides the most comprehensive account since the early 1960s of South Africa s black middle class 2016 CHOICE Outstanding Academic Title The rise of the black middle class is one of the most visible aspects of post apartheid society in South Africa Yet while it has been a major actor in the country s democratic reshaping analysis of its role has been all but lacking Rather the image presented by the media has been of black diamonds consumers of the products of advanced industrial economies and of corrupt tenderpreneurs who use their political connections to obtain contracts This book seeks to complicate that picture with a much needed analysis that recounts its historical development in colonial society prior to 1994 before examining the size shape and structure of the new black middle class in contemporary South Africa and its relation to its counterparts in the Global South Roger Southall is Professor Emeritus in Sociology University of the Witwatersrand Southern Africa South Africa Namibia Botswana Lesotho Zimbabwe and Swaziland Jacana

Disarmament and Defence Industrial Adjustment in South Africa Peter G. Batchelor,Susan Willett,1998 Peter Batchelor and Susan Willett analyse the response of the South African defence

industry to drastic cuts in military expenditure and the demilitarization of society since the end of the cold war and apartheid and the stabilization of the regional security situation The new ANC led government is seeking to use the resources released the peace dividend to restructure and revitalize the country s industrial base and to support reconstruction development and redistribution A lively debate on the country s security needs and strategic doctrine is under way As in other countries strategies of industrial diversification and conversion have met with limited success In the absence hitherto of any coherent government policy on defence industrial adjustment significant skills and technologies have been lost or wasted This book provides a historical analysis of South Africa s unique opportunity to develop new and innovative policies on defence and security matters the arms industry and arms exports and makes a valuable contribution to the international debate on the relationship between disarmament and development

South Africa Marina Ottaway, 2010-12-01 The unbanning of the African National Congress and the release of Nelson Mandela in February of 1990 cleared the way for negotiations toward a new post apartheid political order in South Africa But three years later the main parties have made little progress toward a compromise while violence escalates in the townships In this revealing study Marina Ottaway examines the new conflicts emerging in South Africa the factors influencing them and the probable outcome She shows that the black on white conflict that has made the country a pariah in the past has evolved into a much more complex state of affairs and explains that the transition is likely to take an unprecedented form Beginning with a brief history of the events since Mandela s release Ottaway provides a vivid account of the evolving conflict over apartheid She discusses the complexity of conflict resolution in a country where internal and external currents work against each other and where the struggle for power transcends any strides toward peace Ottaway thoroughly addresses the issues involved in South Africa s transition from apartheid She explains that the abolition of the pervasive system has more far reaching implications than originally thought South Africa explores the effects that the international climate of the 1990s has had on the country s transition Ottaway contends that the international community rejects apartheid but is unsympathetic to black demands for redistribution and has condemned the white government s vision of separate development but accepts ethnic nationalism as inevitable She describes the dramatic effects the new world order has had on South Africa and assesses what those changes will mean to the country s difficult transition
