Race Traitor 12:

Race Struggles Theodore Koditschek, Sundiata Keita Cha-Jua, Helen A. Neville, 2009 The essays in this collection start with the premise that although race like class and gender is socially constructed all three categories have been shaped profoundly by their context in a capitalist society Race in other words is a historical category that develops not only in dialectical relation to class and gender but also in relation to the material conditions in which all three are forged In addition to discussing and analyzing various dimensions of the African American experience contributors also consider the ways in which race plays itself out in the experience of Asian Americans and in the very different geopolitical environments of the British Empire and postcolonial Africa Contributors are Pedro Caban Sundiata Keita Cha Jua David Crockett Theodore Koditschek Scott Kurashige Clarence Lang Minkah Makalani Helen A Neville Ibitola O Pearce David Roediger Monica M White and Jeffrey Williams

Critical White Studies Richard Delgado, Jean Stefancic, 1997 No longer content with accepting whiteness as the norm critical scholars have turned their attention to whiteness itself In Critical White Studies Looking Behind the Mirror numerous thinkers including Toni Morrison Eric Foner Peggy McIntosh Andrew Hacker Ruth Frankenberg John Howard Griffin David Roediger Kathleen Heal Cleaver Noel Ignatiev Cherrie Moraga and Reginald Horsman attack such questions as How was whiteness invented and why How has the category whiteness changed over time Why did some

immigrant groups such as the Irish and Jews start out as nonwhite and later became white Can some individual people be both white and nonwhite at different times and what does it mean to pass for white At what point does pride in being white cross the line into white power or white supremacy What can whites concerned over racial inequity or white privilege do about it Science and pseudoscience are presented side by side to demonstrate how our views on whiteness often reflect preconception not fact For example most scientists hold that race is not a valid scientific category genetic differences between races are insignificant compared to those within them Yet the one drop rule whereby those with any nonwhite heritage are classified as nonwhite persists even today As the bell curve controversy shows race concepts die hard especially when power and prestige lie behind them A sweeping portrait of the emerging field of whiteness studies Critical White Studies presents for the first time the best work from sociology law history cultural studies and literature Delgado and Stefancic expressly offer critical white studies as the next step in critical race theory In focusing on whiteness not only do they ask nonwhites to investigate more closely for what it means for others to be white but also they invite whites to examine themselves more searchingly and to look behind the mirror *Truth and Revolution* Michael Staudenmaier, 2012 A poignant compelling history of one of the most important radical groups you've never heard of **A Promise and a Way of Life** Becky W. Thompson, 2001 Beginning with the diverse catalysts that started these activists on their journeys this book demonstrates the contributions and limitations of white antiracism in key social justice movements BOOK JACKET *The Epistemology of Resistance* José Medina, 2013 This book explores the epistemic side of racial and sexual oppression It elucidates how social insensitivities and imposed silences prevent members of different groups from listening to each other

Unlikely Allies in the Academy Karen L. Dace, 2012-05-23 A CHOICE Outstanding Academic Title 2012 Unlikely Allies in the Academy brings the voices of women of Color and White women together for much overdue conversations about race These well known contributors use narrative to expose their stories which are at times messy and always candid However the contributors work through the discomfort confusion and frustration in order to have honest conversations about race and racism The narratives from Chicanas Indigenous Asian American African American and White women academicians explore our past present and future what separates us and how to communicate honestly in an effort to become allies Chapters discuss the need to interrupt and disrupt the norms of interaction and engagement by allowing for the messiness of discomfort in frank discussion The dialogues model how to engage in difficult dialogues about race and begin to illuminate the unspoken misunderstandings about how White women and women of Color engage one another This valuable book offers strategies ideas and the hope for moving toward true alliances in the academy and to improve race relations This important resource is for Higher Education administrators faculty and scholars grappling with the intersectionality of race and gender as they work to understand study and create more inclusive climates **But Now I See** Fred Hobson, 1999-04-01 The term conversion narrative usually refers to a particular form of expression that arose in Puritan New England in the seventeenth

century In that sense the purely religious the conversion narrative belongs to a rather remote history But in this lucid pathbreaking work Fred Hobson uses the expression in another sense in the realm of the secular to describe a much more recent phenomenon one originating in the American South and marking a new mode of southern self expression not seen until the 1940s Hobson applies the term racial conversion narrative to several autobiographies or works of highly personal social commentary by Lillian Smith James McBride Dabbs Katharine Du Pre Lumpkin Sarah Patton Boyle Will Campbell Larry L King Willie Morris Pat Watters and other southerners books written between the mid 1940s and the late 1970s in which the authors all products of and willing participants in a harsh segregated society confess racial wrongdoings and are converted in varying degrees from racism to something approaching racial enlightenment Indeed the language of many of these works is Hobson points out the language of religious conversion sin guilt blindness seeing the light repentance redemption and so forth Hobson also looks at recent autobiographical volumes by Ellen Douglas Elizabeth Spencer and Rick Bragg to show how the medium persists if in a somewhat different form even at the very end of the twentieth century But Now I See is a study both of this particular variety of the southern impulse to self examination and of those who seem to have retained the habit of seeking redemption even if of a secular variety Departing from the old vertical southern religion salvation centered with heaven as its goal these racial converts embrace a horizontal religion which holds that getting right with man is at least as important as getting right with God A refreshingly original treatment of racial change in the South Hobson s provocative work introduces a new subgenre in the field of southern literature Anyone interested in the history and literature of the American South will be fascinated by this searching volume

Savage Messiah Jim Proser, 2020-01-21 A fascinating biography and in depth look at the work of bestselling writer and psychologist Dr Jordan Peterson by award winning author Jim Proser Who is psychologist professor bestselling author and YouTube personality Dr Peterson What does he believe in Who are his followers And why is he so controversial These are among the many questions raised in this compelling exhaustively researched account of his life from Peterson s early days as a religious school student in small town Canada to his tenure at Harvard to his headline making persona of the present day In Savage Messiah we meet an adolescent Peterson who scoffing at the fairy tales being taught in his confirmation class asks his minister how it s possible to believe the Bible in light of modern scientific theory Unsatisfied with the answer he s been given Peterson goes on to challenge other authority figures who stood in his way as he dared to define the world in his own terms This won Peterson many enemies and more admirers than he could have dreamed of particularly during the digital era when his nontraditional views could be widely shared and critically discussed Still a fall from grace was never far behind Peterson had always preached the importance of free speech which he believed was essential to finding life saving personal meaning in our frequently nihilistic world But when he dismissed Canadian parliament Bill C 16 one that compelled the use of newly invented pronouns to address new gender identities Peterson found himself facing a whole new world Students targeted him as a gender bigot Conservatives

called him their hero Soon Peterson was fixed firmly at the center of the culture wars and there was no turning back With exclusive interviews of Dr Peterson as well as conversations with his family friends and associates this book reveals the heart and mind teachings and practices of one of the most provocative voices of our time **One More War to Fight** Stephen A. Edwards,1997 Exploring the gendered dimension of political conflicts Laura Edwards links transformations in private and public life in the era following the Civil War Ideas about men s and women s roles within households shaped the ways groups of southerners elite and poor whites and blacks Democrats and Republicans envisioned the public arena and their own places in it By using those on the margins to define the center Edwards demonstrates that

Reconstruction was a complicated process of conflict and negotiation that lasted long beyond 1877 and involved all southerners and every aspect of life

The Lumbee Indians Malinda Maynor Lowery, 2018-09-10 Jamestown the Lost Colony of Roanoke and Plymouth Rock are central to America's mythic origin stories. Then we are told the main characters, the friendly Native Americans who met the settlers, disappeared. But the history of the Lumbee Tribe of North Carolina demands that we tell a different story. As the largest tribe east of the Mississippi and one of the largest in the country, the Lumbees have survived in their original homelands, maintaining a distinct identity as Indians in a biracial South. In this passionately written, sweeping work of history, Malinda Maynor Lowery narrates the Lumbees' extraordinary story as never before. The Lumbees' journey as a people sheds new light on America's defining moments, from the first encounters with Europeans to the present day. How and why did the Lumbees both fight to establish the United States and resist the encroachments of its government? How have they not just survived but thrived through Civil War, Jim Crow, the civil rights movement, and the war on drugs, to ultimately establish their own constitutional government in the twenty-first century? Their fight for full federal acknowledgment continues to this day, while the Lumbee people's struggle for justice and self-determination continues to transform our view of the American experience. Readers of this book will never see Native American history the same way.

The Other Side of Terror Erica R. Edwards, 2021-08-10 WINNER 2022 John Hope Franklin Prize given by the American Studies Association HONORABLE MENTION 2022 Gloria E. Anzaldá Book Prize given by the National Women's Studies Association. Reveals the troubling intimacy between Black women and the making of US global power. The year 1968 marked both the height of the worldwide Black liberation struggle and a turning point for the global reach of American power, which was built on the counterinsurgency honed on Black and other oppressed populations at home. The next five decades saw the consolidation of the culture of the American empire through what Erica R. Edwards calls the imperial grammars of blackness. This is a story of state power at its most devious and most absurd, and at the same time a literary history of Black feminist radicalism at its most trenchant. Edwards reveals how the long war on terror, beginning with the late Cold War campaign against organizations like the Black Panther Party for Self-Defense and the Black Liberation Army, has relied on the labor and the fantasies of Black women to justify the imperial spread of capitalism. Black feminist writers not only understood that this would demand a shift in racial/gendered power but crafted ways of surviving it. *The Other Side of Terror* offers an interdisciplinary Black feminist analysis of militarism, security, policing, diversity, representation, intersectionality, and resistance while discussing a wide array of literary and cultural texts, from the unpublished work of Black radical feminist June Jordan to the memoirs of Condoleezza Rice to the television series *Scandal*. With clear, moving prose, Edwards chronicles Black feminist organizing and writing on the other side of terror, which tracked changes in racial power, transformed African American literature and Black studies, and predicted the crises of our current era with unsettling accuracy.

Street Harassment as Everyday Violence Melinda A. Mills,2022-08-09 In Street Harassment as Everyday Violence Melinda A Mills investigates women s experiences with street harassment recognizing this phenomenon as a form of everyday violence The author follows feminist scholars to consider the ways that silence can potentially if only partially protect women from verbally assaultive men who harass women in public This violence both reveals and conceals itself in the discourses of silence about and during street harassment It maps onto and reflects the web of violence that proves persistent and difficult to dismantle This work operates as an initial intervention by way of recognition of street harassment as a problem that hides in plain sight
