Racial Pride and Prejudice Eric John Dingwall,1979

Black Pride and Black Prejudice Paul M.

Sniderman,Thomas Piazza,2021-02-09 Do black pride and black prejudice come hand in hand Does taking pride in being black encourage the rejection of a common bond with other Americans In this groundbreaking study two leading social scientists mount a challenge to those who would answer yes Paul Sniderman and Thomas Piazza probe these questions in the only way possible asking black Americans themselves to share their thoughts about each other America and other Americans Writing in a strikingly transparent style they open a new window on the ideas and values of real individuals who make up the black community in America today Contrary to the rhetoric of some black leaders Sniderman and Piazza show that African Americans overwhelmingly reject racial separatism and embrace a common framework culture and identity with other Americans Although the authors find that levels of anti-Semitism are notably higher among black Americans than among white Americans they demonstrate that taking pride in being black does not encourage blacks to be more suspicious or intolerant of others who are not black The higher levels of anti-Semitism are instead associated with a gallery of oversimplified and accusatory ideas including a popularized Afrocentrism and charges of vast conspiracies that have won substantial support in the black community Readers of this book will come away with an understanding of how African Americans while insistent on winning racial justice are deeply committed to the values of the American ethos and their identity as Americans

Wheeler,2000 Of all mankind's vices racism is one of the most pervasive and stubborn Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul This bibliography brings together the literature providing access by subject groupings as well as author and subject indexes Contents Racial Attitudes Racism and Poverty Hate Groups Racial Justice Racism and Politics Race Discrimination Racial Identity Racism Around the World

The Mind of Frederick Douglass Waldo E.

Martin Jr.,2000-11-09 Frederick Douglass was unquestionably the foremost black American of the nineteenth century The extraordinary life of this former slave turned abolitionist orator newspaper editor social reformer race leader and Republican party advocate has inspired many biographies over the years This however is the first full scale study of the origins contours development and significance of Douglass's thought Brilliant and to a large degree self taught Douglass personified intellectual activism he possessed a sincere concern for the uses and consequences of ideas Both his people's struggle for

liberation and his individual experiences which he envisioned as symbolizing that struggle provided the basis and structure for his intellectual maturation As a representative American he internalized and thus reflected major currents in the contemporary American mind As a representative Afro American he revealed in his thinking the deep seated influence of race on Euro American Afro American or broadly conceived American consciousness He sought to resolve in his thinking the dynamic tension between his identities as a black and as an American Martin assesses not only how Douglass dealt with this enduring conflict but also the extent of his success An inveterate belief in a universal and egalitarian humanism unified Douglass's thought This grand organizing principle reflected his intellectual roots in the three major traditions of mid nineteenth century American thought Protestant Christianity the Enlightenment and romanticism Together these influences buttressed his characteristic optimism Although nineteenth century Afro American intellectual history derived its central premises and outlook from concurrent American intellectual history it offered a searching critique of the latter and its ramifications How to square America's rhetoric of freedom equality and justice with the reality of slavery and racial prejudice was the difficulty that confronted such Afro American thinkers as Douglass
