Wilson, 2015-06-15 During the five full years of his presidency 1964 1968 Lyndon Johnson initiated a breathtaking array of domestic policies and programs including such landmarks as the Civil Rights Act Head Start Food Stamps Medicare and Medicaid the Immigration Reform Act the Water Quality Act the Voting Rights Act Social Security reform and Fair Housing These and other Great Society programs reformed the federal government reshaped intergovernmental relations extended the federal government s role into new public policy arenas and redefined federally protected rights of individuals to engage in the public sphere Indeed to a remarkable but largely

unnoticed degree Johnson's domestic agenda continues to shape and influence current debates on major issues such as immigration health care higher education funding voting rights and clean water even though many of his specific policies and programs have been modified or in some cases dismantled since his presidency LBJ's Neglected Legacy examines the domestic policy achievements of one of America's most effective albeit controversial leaders Leading contributors from the fields of history public administration economics environmental engineering sociology and urban planning examine twelve of LBJ's key domestic accomplishments in the areas of citizenship and immigration social and economic policy science and technology and public management Their findings illustrate the enduring legacy of Johnson's determination and skill in taking advantage of overwhelming political support in the early years of his presidency to push through an extremely ambitious and innovative legislative agenda and emphasize the extraordinary range and extent of LBJ's influence on American public policy and administration

Metropolitan Desegregation Robert Green,2013-11-11 Most of the findings in this book are based on the work of a team of researchers from Urban Affairs Programs at Michigan State University From 1976 to 1981 the team observed the progress of school desegregation in metropolitan Wilmington Delaware which encompasses New Castle County The project was made possible by a grant from the Rockefeller Foundation Division of Social Sciences Metropolitan desegregation is a strategy deserving of national attention because this country's black population has become increasingly concentrated within central cities Desegregation solutions must be found that encompass America's white suburbs as well as its urban areas In a 1977 statement the U S Commission on Civil Rights called metropolitan school desegregation the last frontier to be crossed in the long judicial effort to make equal educational opportunity a living reality Moreover the National Task Force on Desegregation Strategies concluded in 1979 The simple demographic fact is that many large city school districts cannot desegregate by themselves For children in such districts the best hope for attending a desegregated school lies in the implementation of metropolitan desegregation strategies i e desegregation plans which do not stop at the city line but rather encompass at least some of the surrounding suburban areas p 1 The Michigan State University research team began its investigation in New Castle County Delaware after a three judge federal district court ruled that area schools were illegally segregated between districts *An Annotated Bibliography on Selected Fair Housing Issues* ,1986

Documents of Modern Political Thought T. E. Utey,J. Stuart Maclure,2013-08-22 Originally published in 1957 this book

collects together large sections of important tracts from a variety of political documents particularly those concerned with democracy communism Protestantism or Catholicism The extracts come from a wide range of authors including Bertrand Russell Karl Marx John Locke and Pope Pius XII This book will be of value to anyone seeking an overview of the key political divisions in the late 20th century or who is interested in political theory generally **Documents of Modern Political Thought** Stuart Maclure,2021-09-09 Who Gets Represented? Peter K. Enns,Christopher Wlezien,2011-01-10 An investigation of policy preferences in the U S and how group opinion affects political representation While it is often assumed that policymakers favor the interests of some citizens at the expense of others it is not always evident when and how groups interests differ or what it means when they do Who Gets Represented challenges the usual assumption that the preferences of any one group women African Americans or the middle class are incompatible with the preferences of other groups The book analyzes differences across income education racial and partisan groups and investigates whether and how differences in group opinion matter with regard to political representation Part I examines opinions among social and racial groups Relying on an innovative matching technique contributors Marisa Abrajano and Keith Poole link respondents in different surveys to show that racial and ethnic groups do not as previously thought predictably embrace similar attitudes about social welfare Katherine Cramer Walsh finds that although preferences on health care policy and government intervention are often surprisingly similar across class lines different income groups can maintain the same policy preferences for different reasons Part II turns to how group interests translate into policy outcomes with a focus on differences in representation between income groups James Druckman and Lawrence Jacobs analyze Ronald Reagan s response to private polling data during his presidency and show how different electorally significant groups Republicans the wealthy religious conservatives wielded disproportionate influence on Reagan s policy positions Christopher Wlezien and Stuart Soroka show that politicians responsiveness to the preferences of constituents within different income groups can be surprisingly even handed Analyzing data from 1876 to the present Wesley Hussey and John Zaller focus on the important role of political parties vis vis constituents preferences for legislators behavior Who Gets Represented upends several long held assumptions among them the growing conventional wisdom that income plays in American politics and the assumption that certain groups will always or will never have common interests Similarities among group opinions are as significant as differences for understanding political representation Who Gets Represented offers important and surprising answers to the question it raises Public Opinion and the Political Future of the Nation's Capital Edward M. Meyers,1996-06-01 Despite widespread agreement that the District of Columbia s political system has collapsed there is a serious lack of thoughtful proposals addressing the political future of the nation s capital In this book Edward M Meyers examines the opinions of average Americans about Washington D C in order to understand how many Americans are likely to approach the question of what reforms are needed Meyers first explores the political economic and social conditions of the District providing an informed context for

understanding and evaluating its political options Presenting the results of in depth qualitative research with focus groups held across the country Meyers reveals that regardless of the participants knowledge about the District their beliefs in six basic concepts or schemata such as respect for democratic rights attitudes about race and aversion to an intrusive federal government molded their opinions about various options for District self governance The book concludes with insights into the District by local and national political leaders including OMB Director Alice Rivlin Jesse Jackson Representatives Eleanor Holmes Norton Thomas Davis and James Walsh and Marion Barry

When the Fences Come Down Genevieve Siegel-Hawley,2016-04-12 How we provide equal educational opportunity to an increasingly diverse highly urbanized student population is one of the central concerns facing our nation As Genevieve Siegel Hawley argues in this thought provoking book within our metropolitan areas we are currently allowing a labyrinthine system of school district boundaries to divide students and opportunities along racial and economic lines Rather than confronting these realities though most contemporary educational policies focus on improving schools by raising academic standards holding teachers and students accountable through test performance and promoting private sector competition Siegel Hawley takes us into the heart of the metropolitan South to explore what happens when communities instead focus squarely on overcoming the educational divide between city and suburb Based on evidence from metropolitan school desegregation efforts in Richmond Virginia Louisville Kentucky Charlotte Mecklenburg North Carolina and Chattanooga Tennessee between 1990 and 2010 Siegel Hawley uses quantitative methods and innovative mapping tools both to underscore the damages wrought by school district boundary lines and to raise awareness about communities that have sought to counteract them She shows that city suburban school desegregation policy is related to clear measurable progress on both school and housing desegregation Revisiting educational policies that in many cases were abruptly halted or never begun this book will spur an open conversation about the creation of the healthy integrated schools and communities critical to our multiracial future
