specialists and mission scholars it explores the complexities of the subject highlighting its many nuances Figures like Henry Havelock deeply involved in Britain's suppression of the 1857 Indian Rebellion were undoubtedly tied to imperial power Yet missionaries and their supporters were also the moral absolutists of their time sincerely if at times naively committed to ideas of human liberation At the same time Christianity's commitment to translation played a role in preserving indigenous languages and literary traditions adding another layer to this thought provoking discussion Contributors are Brian Stanley Alec Ryrie Michael Snape Nicholas J Wood Ashish Alexander Julian Thompson Emily Burgoyne Kyama Mugambi Kirsteen Kim and Kang San Tan

Adopting for God Soojin Chung, 2021-12-14 Explores the role played by missionaries in the twentieth century transnational adoption movement Between 1953 and 2018 approximately 170 000 Korean children were adopted by families in dozens of different countries with Americans providing homes to more than two thirds of them In an iconic photo taken in 1955 Harry and Bertha Holt can be seen descending from a Pan American World Airways airplane with twelve Asian babies eight for their family and four for other families As adoptive parents and evangelical Christians who identified themselves as missionaries the Holts unwittingly became both the metaphorical and literal parental figures in the growing movement to adopt transnationally Missionaries pioneered the transnational adoption movement in America Though their role is known there has not yet been a full historical look at their theological motivations which varied depending on whether they were evangelically or ecumenically focused and what the effects were for American society relations with Asia and thinking about race more broadly Adopting for God shows that somewhat surprisingly both evangelical and ecumenical Christians challenged Americans to redefine traditional familial values and rethink race matters

By questioning the perspective that equates missionary humanitarianism with unmitigated cultural imperialism this book offers a more nuanced picture of the rise of an important twentieth century movement the evangelization of adoption and the awakening of a new type of Christian mission

Understanding Racism in a Post-Racial World Sunshine Kamaloni, 2019-02-27 This book addresses the question how can we talk about race in a world that is considered post racial a world where race doesn't exist Kamaloni engages with the tradition of everyday racism and traces the process of racialisation through the interaction of bodies in space Exploring the embodied experience exposes the idea of post racialism as a response to continued cultural anxieties about race and the desire to erase it Understanding Racism in a Post Racial World presents a broader question about what everyday encounters about race might tell us about the current cultural construction of race The book provides a much needed investigation of the intersection of race bodies and space as a critical part of how bodies and spaces become racialised and will be of value to students and scholars interested in understanding and discussing race across interdisciplinary areas such as cultural studies communication gender studies geography body studies literature studies and urban studies

South Africa, Race and the Making of International Relations Vineet Thakur, Peter Vale, 2020-01-17 This book offers readers an alternative history of the origins of the discipline of International Relations Conventional western histories of the discipline point to 1919 as the year of the birth of the discipline with two seminal initiatives setting up of the first Chair of IR at Aberystwyth and the founding of the Institute of International Relations on the side lines of the Paris Peace Conference From these events International Relations is argued to have been established as a path to create peace in the post War era and facilitated through a scientific study of international affairs International Relations was therefore both a field of study and knowledge production and a plan of action This pathbreaking book challenges these claims by presenting an alternative narrative of International Relations In this book we make three interconnected arguments First we argue that the natal moment in the founding of IR is not World War I as is generally believed but the Anglo Boer War Second we argue that the ideas methods and institutions that led to the making of IR were first thrashed out in South Africa in Johannesburg in fact Finally this South African genealogy of IR we show in the book allows us to properly investigate the emergence of academic IR at the interstices of race Empire and science

The Subject of Race in American Science Fiction Sharon DeGraw,2006-12-19 While the connections between science fiction and race have largely been neglected by scholars racial identity is a key element of the subjectivity constructed in American SF In his Mars series Edgar Rice Burroughs primarily supported essentialist constructions of racial identity but also included a few elements of racial egalitarianism Writing in the 1930s George S Schuyler revised Burroughs normative SF triangle of white author white audience and white protagonist and promoted an individualistic highly variable concept of race instead While both Burroughs and Schuyler wrote SF focusing on racial identity the largely separate genres of science fiction and African American literature prevented the similarities between the two authors from being adequately acknowledged and explored Beginning in the 1960s Samuel R Delany more fully joined SF and African American literature Delany expands on Schuyler s racial constructionist approach to identity including gender and sexuality in addition to race Critically intertwining the genres of SF and African American literature allows a critique of the racism in the science fiction and a more accurate and positive portrayal of the scientific connections in the African American literature Connecting the popular fiction of Burroughs the controversial career of Schuyler and the postmodern texts of Delany illuminates a gradual change from a stable essentialist construction of racial identity at the turn of the century to the variable social construction of poststructuralist subjectivity today

Hannah Arendt and the Uses of History Richard H. King,Dan Stone,2008-09 Hannah Arendt first argued the continuities between the age of European imperialism and the age of fascism in Europe in *The Origins of Totalitarianism* This text uses Arendt s insights as a starting point for further investigations into the ways in which race imperialism slavery and genocide are linked
