Racism An American Cauldron:

Racism Christopher Bates Doob,1993 Racism Christopher Bates Doob,1999 Racism A. Doob, **Racism** Albert J. Wheeler,2005 Of all mankind's vices racism is one of the most pervasive and stubborn Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul This bibliography brings together the literature Race and Racism in the United States Charles A. Gallagher,Cameron D. Lippard,2014-06-24 How is race defined and perceived in America today and how do these definitions and perceptions compare to attitudes 100 years ago or 200 years ago This four volume set is the definitive source for every topic related to race in the United States In the 21st century it is easy for some students and readers to believe that racism is a thing of the past in reality old wounds have yet to heal and new forms of racism are taking shape Racism has played a role in American society since the founding of the nation in spite of the words all men are created equal within the Declaration of Independence This set is the largest and most complete of its kind covering every facet of race relations in the United States while providing information in a user friendly format that allows easy cross referencing of related topics for efficient research and learning The work serves as an accessible tool for high school researchers provides important material for undergraduate students enrolled in a variety of humanities and social sciences courses and is an outstanding ready reference for race scholars The entries provide readers with comprehensive content supplemented by historical backgrounds relevant examples from primary documents and first hand accounts Information is presented to interest and appeal to readers but also to support critical inquiry and understanding A fourth volume of related primary documents supplies additional reading and resources for research **Race** Douglas A. Blackmon,2019-02-01 In an increasingly polarized political environment the first year of the new president's term will be especially challenging With a fresh mandate however the first year also offers opportunities that may never come again The First Year Project is a fascinating initiative by the Miller Center of the University of Virginia that brings together top scholars on the American presidency and experienced officials to explore the first twelve months of past administrations and draw practical lessons from that history as we inaugurate a new president in January 2017 This project is the basis for a new series of digital shorts published as Miller Center Studies on the Presidency Presented as specially priced collections published exclusively in an ebook format these timely examinations recognize the experiences of past presidents as an invaluable resource that can edify and instruct the incoming president Contributors Michael Eric Dyson Georgetown University Elizabeth Hinton Harvard University Orlando Patterson Harvard University Douglas A Blackmon Georgia State University **The Racial Integration of the American Armed Forces** Geoffrey W. Jensen,2023-02-15 In order to win the Cold War American presidents embraced the mantra of equality of opportunity to justify racial reform efforts within the US military The problem was that equality of opportunity never guaranteed acceptance nor was it designed to In *The Racial Integration of the American Armed*

Forces Geoffrey W Jensen clarifies our understanding of the political processes that fundamentally altered the racial composition of the US military Jensen examines nearly thirty years of military integration that unfolded during the Cold War America's racial woes were grist for the propaganda mills in Moscow and their integration effort was intended to curb this assault and protect the nation's image during this largely ideological struggle But integration of the armed forces needed more than just Cold War justification It also required the willingness of the president to lead Military integration occurred as the result of the longstanding tradition of Congress to allow the executive branch to control the staffing and composition of the military While past accounts of the integration of the armed forces have focused on the critical roles played by the burgeoning leadership of the civil rights movement and the Black population Jensen is the first to emphasize the importance of presidential leadership and their staffs Jensen contends that understanding the action and inaction of Cold War presidents and their administrations matters just as much as understanding the efforts of those outside of Washington and the West Wing as it was the presidents who were the ones dictating the pace at which reform was carried out Jensen has carefully situated this story within the milieu of the Cold War the civil rights movement and looming over it all the emergence of Southern resistance to desegregation in the United States Desperately committed to upholding and expanding their vision of white supremacy the South recoiled in horror at the prospect of racially integrating the armed forces From this vantage point Jensen shows how the use of Black military personnel during the Cold War and throughout all American history was not born solely out of humanistic beliefs or desires to improve the social status of the Black community but out of the strategic necessity of winning the war at hand

Conceptualizing Racism Noel A. Cazenave, 2015-11-19 *Conceptualizing Racism* is a provocative book that confronts the language we use to discuss and understand racism Author Noel A Cazenave argues that American social science has since its inception practiced linguistic racial accommodation that blurs our understanding of systemic racism and makes it difficult to effect meaningful change *Conceptualizing Racism* highlights how words matter in racism studies The author traces the history of linguistic racial accommodation through the development of sociology as a discipline and illustrates how it is at play today not only within the discipline but in public life

Health Care Policy and Practice Cynthia Moniz, Stephen Gorin, 2018-12-07 In *Health Care Policy and Practice: A Biopsychosocial Perspective* Moniz and Gorin guide students through the development of the American health care system: what it is, what the policies are, and how students can influence them. Part I focuses on recent history and reforms; Part II examines the system's structure and policies; and Part III explores policy analysis and advocacy and disparities in health based on demographics and inequities in access to care. The book concludes with a discussion of the impact of social factors on health and health status. This new fifth edition has been fully updated to include the Trump administration's efforts to repeal and replace the Affordable Care Act (ACA) and to integrate content throughout the text on the impact of the ACA in recent years. In addition, new content on health disparities for the LGBTQ community has been added.

Race, Ethnicity, and the American Urban Mainstream Christopher Bates Doob, 2005 *Race and Ethnicity in the American Nation Mainstream* uses history, biography, and sociological analysis to examine the achievements and struggles of racial and ethnic groups in American cities. Doob focuses on race and ethnicity in U.S. cities where most immigrant groups have historically settled and where most inter-group relations have taken place. The book is organized around social systems: politics, housing, economics, and work/education, rather than groups or concepts such as prejudice and discrimination.

Cuban Revolution in America Teishan A. Latner, 2018-01-11 Cuba's grassroots revolution prevailed on America's doorstep in 1959, fueling intense interest within the multiracial American Left, even as it provoked a backlash from the U.S. political establishment. In this groundbreaking book, historian Teishan A. Latner contends that in the era of decolonization, the Vietnam War, and Black Power, socialist Cuba claimed center stage for a generation of Americans who looked to the insurgent Third World for inspiration and political theory. As Americans studied the island's achievements in education, health care, and economic redistribution, Cubans in turn looked to U.S. leftists as collaborators in the global battle against inequality and allies in the nation's Cold War struggle with Washington. By forging ties with organizations such as the Venceremos Brigade, the Black Panther Party, and the Cuban American students of the Antonio Maceo Brigade, and by providing political asylum to activists such as Assata Shakur, Cuba became a durable global influence on the U.S. Left. Drawing from extensive archival and oral history research and declassified FBI and CIA documents, this is the first multidecade examination of the encounter between the Cuban Revolution and the U.S. Left after 1959. By analyzing Cuba's multifaceted impact on American radicalism, Latner contributes to a growing body of scholarship that has globalized the study of U.S. social justice movements.

Working through Whiteness Cynthia Levine-Rasky, 2012-02-01 What is whiteness? What is gained by claiming it as a critical perspective in anti-racism work? How do whiteness studies both redeem and assert the white subject? *Working through Whiteness* explores these questions through essays by Canadian, American, British, and

Australian scholars reflecting the broad array of academic inquiry into whiteness in the areas of law ethics education feminism politics psychology sociology criminology and social geography Rarely has knowledge of whiteness as the practice of social domination been drawn from this far and wide By embracing the leading edge in critical theory this book is a crucial addition to the growing literature on whiteness **New Faces in a Changing America** Loretta I. Winters, Herman L. DeBose, 2003 *New Faces in a Changing America* is a comprehensive penetrating authoritative and provocative examination of what it means to be multiracial in this country With contributions by the leading thinkers activists and researchers on the subject it admirably links theory and the powerful lived experiences of mixed race people This book will be the most important reference source on the subject for many years James P Allen California State University Northridge Not since the work of Root has there been as important of an anthology as *New Faces in a Changing America* This book explores the reality of multiracial people from a variety of theoretical and conceptual perspectives It is a must read for anybody who want to understand the multiracial movement and the multiracial people who lead that movement Any teacher who wants to introduce the concept of multiraciality to his her class must also have this book Winters and Debose are to be commended for putting together this first rate academic examination of an important social phenomenon George Yancey University of North Texas How multiracial people identify themselves can have major consequences on their positions in their families communities and society Even the U S Census has recognized the rapidly increasing numbers of those who consider themselves multiracial adding a new racial category to the 2000 Census form two or more races *New Faces in a Changing America* Multiracial Identity in the 21st Century examines the multiracial experience its history and the political issues and consequences surrounding biracial and multiracial identity bringing together top names in the field to give readers cutting edge views and insights gained from contemporary research This important new text follows the trail blazed by Maria Root who contributes its opening chapter An introduction places the issues of multiracial identity into context via a discussion of U S Census data and debates providing an overview of the varied readings to come covering such topics as Race as a social rather than biological construction The Multiracial Movement Racial Ethnic Groups in America and Beyond Race Gender human service professionals including psychologists counselors social workers and school personnel and importantly multiracial individuals themselves *Encyclopedia of Social Problems* Vincent N. Parrillo, 2008-05-22 From terrorism to social inequality and from health care to environmental issues social problems affect us all The Encyclopedia will offer an interdisciplinary perspective into these and many other social problems that are a continuing concern in our lives whether we confront them on a personal local regional national or global level
