A Family of Readers Martha V. Parravano, Roger Sutton, 2012-10-09 Two of the most trusted reviewers in the field join with top authors illustrators and critics in a definitive guide to choosing books for children and nurturing their love of reading A FAMILY OF READERS is the definitive resource for parents interested in enriching the reading lives of their children It s divided into four sections 1 Reading to Them Choosing and sharing board books and picture books with babies and very young children 2 Reading with Them Launching the new reader with easy readers and chapter books 3 Reading on Their Own Exploring what children read and how they read by genre and gender 4 Leaving Them Alone Respecting the reading privacy of the young adult Roger Sutton knows how and why children read He must as the editor in chief of THE HORN BOOK which since 1924 has been America s best source for reviews of books for young readers But for many parents selecting books for their children can make them feel lost Now in this essential resource Roger Sutton and Martha V Parravano executive editor at the magazine offer thoughtful essays that consider how books are read to and then by young people They invite such leading authors and artists as Maurice Sendak Katherine Paterson Margaret Mahy and Jon Scieszka as well as a selection of top critics to add their voices about the genres they know best The result is an indispensable readers companion to everything from wordless board books to the most complex and daring young adult novels **The Best in Children's Books** Zena Sutherland, 1973 Reviews 1 400 books for children chosen as the best published during the years 1966 1972 **The Horn Book Magazine**, 1987 **The Structure of Social Inconsistencies** R. Grathoff, 2012-12-06 Few phenomena have found such divergent descriptions in sociological literature as have social inconsistencies They were studied by George Herbert Mead as eruptive natural events constituting a social temporality Alfred SchUtz described them as explosions of the individual actor s anticipatory action patterns Talcott Parsons attempted to grasp social inconsistencies into his frame of pattern variables while Erving Goffman dealt with them as disruptions of fostered impressions of reality maintained by one or the other dominant team The present study traces these divergent approaches back to various unchecked assumptions concerning the structure and the constitution of social types Thus to further clarify the relationship between social types and the relevance structure of interactional situations has been my first objective This initially rather limited intention widened when the role of social inconsistencies for analysing the differences between play game and social action proper in the immediate context of social interaction became apparent The structure of social inconsistencies seems to hold a key to unifying the theories of play and social action *Teaching Children* Diane D.
