Re-Reading English Peter Widdowson, 2013-10-08 First Published in 2002 It is easy to see that we are living in a time of rapid and radical social change It is much less easy to grasp the fact that such change will inevitably affect the nature of those disciplines that both reflect our society and help to shape it Yet this is nowhere more apparent than in the central field of what may in general terms be called literary studies New Accents is intended as a positive response to the initiative offered by such a situation Each volume in the series will seek to encourage rather than resist the process of change To stretch rather than reinforce the boundaries that currently define literature and its academic study *Re-Reading Ishi's Story* Norman K. Denzin, 2021-03-09 Rereading Ishi's Story offers a manifesto of sorts through a critical reading of an anthropological classic Theodor Kroeber's 1961 book *Ishi in Two Worlds A Biography of the Last Wild Indian in North America* The heart of the analysis involves a five play cycle built around Gerald Vizenor's trickster survivance model It gives Ishi a voice he never had in Kroeber's book and imagines an Ishi who was not the happy warrior in Kroeber's book The author follows the story line in Kroeber's book focusing on key events as recounted by Alfred Kroeber and his associates Saxton Pope and Thomas Waterman Chapter 1 tells Ishi's story in his own words Chapter 2 retells Ishi's capture narrative which includes the recording of his story of the wood ducks Chapter 3 builds on stories told about Ishi by Zumwalt Jr Chapter 4 criticizes Kroeber and associates for making Ishi return to his homeland asking him to play Indian and Chapter 5 takes up his death and the recovery of his brain The concluding chapters address repatriation practices genocide Indigenous ethics discourses of forgiveness and a performance autoethnography ethic for this new century returning to the Kroebers and their autoethnographic practices This book continues a four volume project on Native Americans the postmodern Wild West shows museums violence genocide and the modern U S American use of the Native American in a collective search for an authentic identity Denzin 2015 2013 2011 2008 It will be of great interest to scholars and students of qualitative inquiry anthropology and Native American studies *Re-reading the Short Story* Clare Hanson, 1989-06-18 This collection of essays maintaining links with theory and practice applies a critical approach to the short story form Some are theoretical in orientation covering such issues as gender and marginality while others offer readings of works by writers such as Alice Munro and John McGahern **Rereading Modernism** Lisa Rado, 2012 Until about 1986 feminists generally considered modernism a reactionary misogynist and hegemonic mire not worth investigating Since then enough studies of modernism have appeared that 17 feminist critics can now review and debate their treatment of the period They evaluate the progress and goals of the new era of modernist scholarship As the authors in this volume suggest instead of condemning writers for not practicing or portraying an acceptable politics of gender we ought instead to show how their assumptions about the nature of the sexes inform their texts both in their creation and in their reception This also allows examination of the complex and changing relationship between human subjectivity and aesthetics This volume is a highly reflective dialogue introspective and

evaluative at a moment of crisis within modernist studies and feminist studies The analysis of critical work on early twentieth century literature not only helps reread and redefine a definition of modernism it also intends to redirect and reintegrate feminist theory English and Englishness Brian Doyle,2013-06-19 First published in 2002 This volume is part of the New Accent series looking at English and popular culture language policy fiction and democracy Each volume in the series will seek to encourage rather than resist the process of change to stretch rather than reinforce the boundaries that currently define literature and its academic study **Rereading Victorian Fiction** A. Jenkins,J. John,1999-12-07 This book offers a collection of essays on novels and short stories from the beginning of Victoria s reign through to the end of the nineteenth century and into our own times The essays represent a wide range of critical and theoretical viewpoints on fiction and they deal with a number of lesser known Victorian Works as well as with some of the most canonical texts of the period The chronological range of the volume is extended by essays which explore Victorian texts connections with earlier literature as well as by studies of twentieth century novelists responses to Victorian fiction Overall this collection emphasizes the breadth and diversity of Victorian prose fiction and will be of interest to students and specialists alike *Reading English with Awareness - Level A* Yael Bejarano,2003 **Beginning Postcolonialism** John McLeod,2000-07-07 Postcolonialism has become one of the most exciting expanding and challenging areas of literary and cultural studies today Designed especially for those studying the topic for the first time Beginning Postcolonialism introduces the major areas of concern in a clear accessible and organized fashion It provides an overview of the emergence of postcolonialism as a discipline and closely examines many of its important critical writings **A New Writing Classroom** Patrick Sullivan,2014-07-15 In A New Writing Classroom Patrick Sullivan provides a new generation of teachers a means and a rationale to reconceive their approach to teaching writing calling into question the discipline s dependence on argument Including secondary writing teachers within his purview Sullivan advocates a more diverse exploratory and flexible approach to writing activities in grades six through thirteen A New Writing Classroom encourages teachers to pay more attention to research in learning theory transfer of learning international models for nurturing excellence in the classroom and recent work in listening to teach students the sort of dialogic stance that leads to higher order thinking and more sophisticated communication The conventional argumentative essay is often a simplistic form of argument widely believed to be the most appropriate type of writing in English classes but other kinds of writing may be more valuable to students and offer more important kinds of cognitive challenges Focusing on listening and dispositions or habits of mind as central elements of this new composition pedagogy A New Writing Classroom draws not just on composition studies but also on cognitive psychology philosophy learning theory literature and history making an exciting and significant contribution to the field The Teaching of English Ian Michael,1987-05-21 Not only academic educationalists interested in the history of the curriculum but teachers from primary schools to University will find this book of compelling interest
