Re Enchantment Of The West:

The Re-Enchantment of the West Christopher Partridge, 2005-03-04 As a book about emergent spirituality in the contemporary West it focuses on the nature evolution and significance of new forms of religion and alternative spiritualities Part One of the book provides the theoretical background and guides the reader through some of the principal debates After an overview of the secularization thesis which argues that the West is becoming increasingly disenchanted the second chapter turns to the sociological analysis of new religions and alternative spiritualities Particular attention is given to the ideas of the sociologist of religion Ernst Troeltsch especially his enigmatic analysis of the emergence mystical religion which presciently provides helpful insights into understanding the contemporary alternative religious milieu Against sociologists such as Bryan Wilson and Steve Bruce this and the subsequent chapter argues that rather than being insignificant new forms of spirituality are actually proving to be a significant part of Western re enchantment Chapter 3 constructs a general theory of the re enchantment of the West Chris Partridge argues that Western Society is permeated by a broad occulture by which he means a reservoir of ideas beliefs theories and practices to which new religions unorthodox spiritualities film and popular music all draw attention This re enchantment of the West should not be seen as a superficial secondary development in the shadow of Christianity In many ways it is a religious phenomenon in its own right Partridge's arguments in this regard are well put and I warmly welcome this timely book Mikhael Rothstein University of Copenhagen Denmark

The Re-Enchantment of the West, Vol 2 Christopher Partridge, 2006-06-20 Challenging some assessments of religion in the West this study argues that although much organized religion particularly Christianity is in numerical decline in actual fact we are witnessing an alternative spiritual re enchantment of society and culture

The Re-Enchantment of the West, Vol 2 Christopher Partridge, 2006-04-20 The Re Enchantment of the West challenges those theories that predict widespread secularization beyond traditional institutional religiosity Spiritualities are emerging that are not only quite different from the those forms of religion that are in decline but are often defined over against them and articulated and passed on in ways quite different from those of traditional religion In particular it is argued that such contemporary Western spirituality is fed by a constantly replenished reservoir of ideas practices and methodologies which is here termed occulture Moreover such occultural ideas both feed into and are resourced by popular culture Indeed popular occulture is a key feature of the re enchantment of the West Demonstrating the significance and ubiquity of these ideas this book examines for example healthcare and nursing contemporary environmentalism psychedelia and drug use the Internet and cyberspirituality belief in UFOs and extraterrestrial life demonology and the contemporary fascination with the figure of Satan the heavy metal subculture popular apocalypticism and millennial violence

The Re-enchantment of the West Christopher Hugh Partridge, 2005-04-15 An examination of emerging spirituality in the contemporary West this book focuses on the nature evolution and significance of new forms of religion and alternative spiritualities Part One provides the theoretical background

and guides the reader through some of the principal debates After an overview of the secularization thesis which argues that the West is becoming increasingly disenchanted the second chapter turns to the sociological analysis of new religions and alternative spiritualities Particular attention is given to the ideas of the sociologist of religion Ernst Troeltsch Against sociologists such as Bryan Wilson and Steve Bruce this and the subsequent chapter argues that rather than being insignificant new forms of spirituality are actually proving to be a significant part of Western re enchantment Chapter 3 constructs a general theory of the re enchantment of the West

The Re-enchantment of the West Christopher Hugh Partridge,2004 *Reenchantment* Jeffrey Paine,2004-11-02 The colorful tale of the successful flowering of an obscure ancient Eastern sect in the modern world In a single generation Tibetan Buddhism developed from the faith of a remote mountain people associated with bizarre almost medieval superstitions to perhaps the most rapidly growing and celebrity studded religion in the West Disaffected with other religious traditions yet searching for meaning huge numbers of Americans have found their way to the wisdom of Tibetan lamas in exile Earthy humorous commonsensical and eccentric these flamboyant teachers larger than life characters like Lama Yeshe and Chogyama Trungpa proved to be charismatic and gifted ambassadors for their ancient religion So did two Western women born in Brooklyn and London s East End whose homegrown religious intuitions turned out to be identical with the most sophisticated Tibetan teachings revealing them to be reincarnated lamas With great flair for both the sublime and the human Jeffrey Paine narrates in page turning richly informative fashion how Tibetan Buddhism rarefied and sensual mystical and commonsensical became the ideal religion for a post religious age By far the best of the recent popular books exploring the amazing impact of Tibetan Buddhism Paine s witty erudite flowing prose creates a memorable album of many characters saints rascals and ordinary folks He glosses over nothing is ruthlessly critical where it is deserved but is also secure enough to appreciate the beauty and the power of the magic and mystery the profound practical wisdom and compassion of Tibetan civilization gone global Robert Thurman Jey Tsong Khapa Professor of Indo Tibetan Buddhist Studies Columbia University Riveting Recounts elegantly yet without fuss stories of human transformation that consistently incite our capacity for wonder Askold Melnyczuk Boston Globe Memorable anecdotes great storytelling and keen observations mark this cogent exploration of the explosive growth of Tibetan Buddhism in the West Publishers Weekly starred review

[The Philosophy of Reenchantment](#) Michiel Meijer,Herbert De Vriese,2020-10-27 This book presents a philosophical study of the idea of reenchantment and its merits in the interrelated fields of philosophical anthropology ethics and ontology It features chapters from leading contributors to the debate about reenchantment including Charles Taylor John Cottingham Akeel Bilgrami and Jane Bennett The chapters examine neglected and contested notions such as enchantment transcendence interpretation attention resonance and the sacred or reverence worthy notions that are crucial to human self understanding but have no place in a scientific worldview They also explore the significance of adopting a reenchanting perspective for debates on major concepts such as nature naturalism God ontology

and disenchantment Taken together they demonstrate that there is much to be gained from working with a more substantial and affirmative concept of reenchancement understood as a fundamental existential orientation towards what is seen as meaningful and of value The Philosophy of Reenchancement will be of interest to scholars and advanced students in philosophy especially those working in moral philosophy metaphysics philosophy of religion theology religious studies and sociology

Post-Secular Society Gustaaf Geeraerts,2017-07-28 Post Secular Society argues for several characteristics of the secular the experience of living in a secular age and the experience of living without religion as a normal condition Religion in the West is often seen as marked by both innovation and disarray In spite of differing approaches and perspectives of secularization rational choice and de secularization many scholars agree that the West is experiencing a general resurgence of religion across most Western societies Post Secular Society discusses the changes in religion related to globalization and New Age forms of popular religion The contributors review religion that is rooted in the globalized political economy and the relationship of post secularism to popular consumer culture Also reviewed is innovative discourse as a religious belief system theories of the post secular religious and spiritual well being and healing practices in Finland and environmentalism This paperback edition includes a new preface by Peter Nynas *The Problem of Disenchantment* Egil Asprem,2018-05-31 Challenges the conventional view of a disenchanted and secular modernity and recovers the complex relation that exists between science religion and esotericism in the modern world Max Weber famously characterized the ongoing process of intellectualization and rationalization that separates the natural world from the divine by excluding magic and value from the realm of science and reason and fact from the realm of religion as the disenchantment of the world Egil Asprem argues for a conceptual shift in how we view this key narrative of modernity Instead of a sociohistorical process of disenchantment that produces increasingly rational minds Asprem maintains that the continued presence of magic and enchantment in people s everyday experience of the world created an intellectual problem for those few who were socialized to believe that nature should contain no such incalculable mysteries Drawing on a wide range of early twentieth century primary sources from theoretical physics occultism embryology radioactivity psychical research and other fields Asprem casts the intellectual life of high modernity as a synchronic struggle across conspicuously different fields that shared surprisingly similar intellectual problems about value meaning and the limits of knowledge *The Problem of Disenchantment* is in its entirety extraordinarily well researched argued and written representing at once the most complete and nuanced treatment of the notion of disenchantment within this network of scientific religious philosophical and esoteric discourses and currents Nova Religio

The New Age in the Modern West Nicholas Campion,2015-11-19 New Age culture is generally regarded as a modern manifestation of Western millenarianism a concept built around the expectation of an imminent historical crisis followed by the inauguration of a golden age which occupies a key place in the history of Western ideas *The New Age in the Modern West* argues that New Age culture is part of a family of ideas including utopianism which construct alternative futures and drive
