Brennan, 2007-01-01 A pastor of

Reimagining Ministerial Formation David Heywood, 2021-04-30 The Church is currently experiencing a transition in the way it understands and practises both mission and ministry It is to be outward looking engaging with the wider community involving all its members in mission and clergy are to play the role of enablers and equippers of the ministry of the whole church However ministerial formation in colleges and courses throughout the country lags behind this emerging consensus Theological education is still largely based on academic models Reimagining Ministerial Formation offers a new way forward where ministry comes to be about the whole church and ministerial formation is about collaboration between clergy and laity It argues strongly for a shift away from front loaded training to a new focus on formation as a life long process
