Reaching For The Dream Challenges Of Sustainable Development In Vietnam:

Reaching for the Dream Melanie Beresford, Angie Ngoc Tran, 2004 Transition economies allow the study of fundamental questions about the nature of markets How do they arise and do they necessarily follow the same *modus operandi* as markets in other countries How does the opening of the economy to global market influences affect the process of institutional change This book focuses on the differentiated ways in which the double transition in Vietnam from central planning and from under development affects various sectors of the population *Vietnam in the Global Economy* Thomas Jandl, 2013-10-24 This book is in essence about incentives the incentives for competing societal interest groups to cooperate with each other to benefit from a growing economic pie rather than fighting over a bigger share of a smaller one This is the conundrum of economic development If elite interest groups have both incentive and ability to allocate resources toward themselves and if such rent seeking causes a decline in economic inefficiency how can economies ever grow The book illuminates the mechanisms by which in one of the world's recent economic success stories Vietnam's rapid industrialization and passage into the middle income category the interest in cooperating to grow the economy overrode the elites instinct to allocate resources through the use of political power The book shows how the need to provide positive conditions for international investment altered pay off structures and pushed the all powerful Communist Party of Vietnam to engage in bargaining with provincial officials provincial officials with international investors and finally all coercive elites even with the working classes It describes the emergence of a harmony of interest among societal groups in which each group benefits from a growing economy and no one group can monopolize the benefits of growth without hurting itself The Vietnam case validates Nobel Prize winning economist Mancur Olson's proposition that elite predation can only be kept in check when the elite itself suffers from the economic decline it causes at least as much as it gains from the rents it collects **Space and Environment in the**

Industrialising Mekong Delta Siwei Tan, 2016 Industrial zones were only introduced to Vietnam in the 1990s but even the agrarian Mekong Delta boasts of about 100 zones What is their environmental impact While missing capacity financing and regulation is the common diagnosis this book reintroduces the structural features of the Vietnamese state and its economy into its analysis of wastewater management in the industrial zones It reveals the socio spatial effects of the Vietnamese state administration system and the State's utilisation of law and its ambiguities to express and facilitate multiple dimensions of socio spatiality Siwei Tan LLB MSc holds a PhD in Geography She is an assistant lecturer for environmental governance at the Department of Geography in University of Bonn Series ZEF Development Studies Vol 30 Subject Vietnamese Studies Economics Politics Law *Water Rights and Social Justice in the Mekong Region* Kate Lazarus, Bernadette P.

Resurreccion, Nga Dao, Nathan Badenoch, 2012-06-25 The Mekong Region has come to represent many of the important water governance challenges faced more broadly by the mainland Southeast Asian region This book focuses on the complex nature of water rights and social justice in the Mekong region The chapters delve into the diverse social political and cultural

dynamics that shape the various realities and scales of water governance in the region in an effort to bring to the forefront some of the local nuances required in the formulation of a larger vision of justice in water governance It is hoped that this contextualized analysis will deepen our understanding of the potential of and constraints on water rights in the region particularly in relation to the need to realize social justice The authors show how vitally important it is that water governance is democratized to allow a more equitable sharing of water resources and counteract the pressures of economic growth that may pose risks to social welfare and environmental sustainability

Environmental Governance in Vietnam Stephan Ortmann, 2017-01-30 This book deals with institutional reforms in response to a mounting environmental crisis in Vietnam The author introduces the reader to the most important environmental problems that Vietnam is currently facing and shows how the emphasis on economic growth has come at the expense of the natural environment Following an assessment of the still deteriorating environmental situation the book develops a theoretical framework of institutional change within the political system seeking to overcome the traditionally static understanding of institutions The empirical analysis devotes attention to the main aspects on Vietnam's environmental governance including the government society businesses and international organizations The book is based on four years of empirical research including interviews with government officials and representatives of international and national non governmental organizations observations of meetings official documents and numerous Vietnamese newspaper reports This book is directed both at academics students as well as development practitioners and activists It seeks to engage those working in the fields of environmental politics governance and institutional change in one party states

Gender, Household and State in Post-Revolutionary Vietnam Jayne Werner, 2009-01-21 Examining gender in post revolutionary Vietnam focusing in particular on gender relations in both the family and state since the onset of economic reform in 1986 this book argues that as in the socialist era current gender relations bear the imprint of state gender policies and discourses

Economic Development and Entrepreneurship in Transition Economies Jovo Ateljević, Jelena Trivić, 2016-04-05 This book contributes to a better understanding of entrepreneurship in transition economies Current literature reflects the more traditional schools of thought on entrepreneurship which are influenced by the Western perspective and fail to fully address the scenario in transition economies There is a broad consensus among academics policy makers and practitioners that a fundamental cause of difficulties experienced by most economies in transition has been the fact that reform has not been accompanied by the creation of new private businesses and particularly SMEs This is especially evident in states created in Europe after the dissolution of the Soviet Union where many barriers which were inherited from the old system remain in place thus inhibiting entrepreneurial progress in these countries despite a favorable political and economic environment The contributions featured in this book focus on how much progress has been achieved so far with regard to these aspects as well as identify which current barriers and issues still need to be resolved Themes include innovation performance financing venture capital

educational factors and entrepreneurial learning *Vietnamese Migrants in Russia* Lan Anh Hoang, 2025-10-01 Drawing on ethnographic research conducted at Moscow's wholesale markets from 2013 to 2016 *Vietnamese Migrants in Russia* Mobility in Times of Uncertainty provides original insights into how uncertainty shapes social practice identity and belonging in the context of irregular migration from Vietnam to Russia The study speaks to various debates in migration and mobility studies particularly those focused on brokerage networks the political economy of sexuality and social belonging deepening our knowledge of how the core social values and cultural logics that underpin Vietnamese personhood are challenged and reconstituted by the ethos of the market economy This book sheds important light on processes of mobility and social change in post socialist societies that continue to grapple with yawning chasms between old and new ways of life the local and the global policy and practice and obsolete governance techniques and rapidly changing socio economic realities **The Vietnamese Health Care System in Change** Kerstin Priwitzer, 2012 Within the last twenty years a large scale bottom up privatization has taken place in Vietnam changing and dismantling the public health care system This process has led to severe tensions inherent in the transitional society of Vietnam between equity and access to health care support especially for the poor elderly migrants and ethnic minorities on the one hand and its efficiency on the other hand The book traces the reform efforts to modernize the health care system by the Communist Party of Vietnam and the Vietnamese government The author bases her findings on little known primary literature and interviews with key stakeholders of the policy network involved in the reform of the health care system thereby painting an authentic atmospheric picture of the profound changes in the health care system in Vietnam **Food Consumption in the City** Marlyne Sahakian, Czarina Saloma, Suren Erkman, 2016-10-04 Food consumption patterns and practices are rapidly changing in Asia and the Pacific and nowhere are these changes more striking than in urban areas This book brings together scholars from anthropology sociology environmental studies tourism architecture and development studies to provide a comprehensive examination of food consumption trends in the cities of Asia and the Pacific including household food consumption eating out and food waste The chapters cover different scales of analysis from household research to national data and combine different methodologies and approaches from quantifiable data that show how much people consume to qualitative findings that reveal how and why consumption takes place in urban settings Detailed case studies are included from China India Japan Malaysia Philippines South Korea and Vietnam as well as Hawai'i and Australia The book makes a timely contribution to current debates on the challenges and opportunities for socially just and environmentally sound food consumption in urbanizing Asia and the Pacific Chapter 3 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 3.0 license
