Reaching for the Moon Buzz Aldrin, 2005-05-24 I walked on the moon This is my journey But it didn't begin when I stepped on board Apollo 11 on July 1 1969 It began the day I was born Becoming an astronaut took more than education discipline and physical strength It took years of determination and believing that any goal is possible from riding a bike alone across the George Washington Bridge at age ten to making a footprint on the Moon I always knew the Moon was within my reach and that I was ready to be on the team that would achieve the first landing But it was still hard to believe when I took my first step onto the Moon's surface We all have our own dreams This is the story of how mine came true
