Bonfiglio, Crawford J. Campbell**

Reactions To Injury Burns And Their Clinical Importance:

Shock, Sepsis, and Organ Failure Günther Schlag, Heinz Redl, John H. Siegel, Daniel L. Traber, 2012-12-06 The Wiggers Bernard Conferences named after two great physiologists of the past are an annual gatherings of the leaders in the field of shock. The meetings focus on specific areas of which appears to be showing the most advancement during the previous year. There are several types of sessions: informal presentations during which the seminarian can be interrupted in order to clarify a particular point; formal discussions follow each presentation; these are followed by informal gatherings in which these discussions continue during meals and libation in a very relaxed environment. The 1990 meeting took place in Durnstein, Austria. A small hamlet in the wine growing area of the Wachau valley on the Danube above Vienna. This was the site of a former citadel where the English King Richard the Lion Heart Coeur de Lion was held for ransom during the middle ages. The frank beauty and hospitality of this area in addition to the ancient Roman adage in vino veritas acted as a catalyst to crystalize the thoughts of this interdisciplinary group of scientists as they discussed the following areas: 1 Gut as a Source of Organ Failure 2 Metabolic Aspects of the Liver in Sepsis 3 Endothelium as a Target in Sepsis. We would like to thank the participants of the conference for taking time away from their very productive and busy schedules to participate in the conference and for the prompt presentation of their manuscripts and editions of their discussions. *Reactions to Injury & Burns* Simon Sevt, 1974 *National Library of Medicine Current Catalog* National Library of Medicine (U.S.), 1971 First multi year cumulation covers six years 1965-70 *Endocrinology of Thermal Trauma* Rajko Doleček, 1990 **Pathology of Thermal Injury** Thomas W.
