Packard, 2012-12-06 Published research and conference presentations on the Chinese language in the last decade have tended to focus on adult language processing This book provides a comprehensive resource for the critical discussion of major issues in learning to read Chinese from a child acquisition perspective The combined contributions from researchers in Asian studies linguistics psycholinguistics psychology cognitive psychology reading and education inform international comparative studies of literacy by making

apparent the features of the Chinese culture language writing system and pedagogy that may facilitate or impede the acquisition of literacy *Subject Guide to Children's Books In Print, 1996* R R Bowker Publishing,1996 A Time to Read Mary Ruth Wilkinson,Heidi Wilkinson Teel,2000-06 In a Time to Read Mary Ruth K Wilkinson and her daughter Heidi Wilkinson Teel have compiled a helpful guide to children s books More than bibliography A TIME TO READ also includes essays on the nature of children families literature and story and how these hold together in a Christian life reflecting Mary Ruth s 30 years experience teaching a literary and Christian approach to children s books Reflection Through Interaction Judith Watson Moray House Institute of Education,2019-06-19 First Published in 1996 Teaching approaches for pupils with learning difficulties have often emphasized the presentation and repetition of easily manageable tasks rather than exploration learning through mistakes and reflection However there is encouraging evidence that such pupils may be helped to develop effective learning approaches with marked improvements in their academic performance and self concept The importance of the teacher s role in facilitating pupils reflective activity cannot be overstated This book locates reflective experiences within classroom interaction and discusses a variety of ways in which teachers can foster reflection These include their classroom talk challenging activities and the creation of an ethos where expectations are high and pupils thinking and self awareness are shown to be valued Most but not all of the classroom research reported here was conducted in special schools for pupils with moderate learning difficulties but the findings have implications for teachers of a wide range of pupils in both special and ordinary schools The hope is that they will be stimulated to incorporate some of the ideas in this book into their own practice
