Read For Your Life Literature As A Life:

Read for Your Life Joseph Gold, 2001 Mr Gold adroitly and expertly advocates the necessity of reading in our lives. Actually he goes as far as claiming that reading is a biological necessity in the same way as eating is. Reading is thinking, imagining, understanding, feeling, and healing. It is an activity that is far from an escape or an avoidance of reality because it provides the reader the necessary relief from the ad hoc reacting and chaos of socialising by taking care of us, leading us, and letting us imagine alternative lives through the complex paths of experience and language. In this sense, reading truly is a therapeutic experience, and Mr Gold gives numerous examples of patients he managed to cure by giving them novels to read because they are an experiential tool for re-seeing and reordering the reader's own confusing experience. Novels take on our confusion; they bear our burdens and leave us to see the larger picture we cannot see because they offer another perspective. Reading being the most powerful and plentiful source of information, it isn't surprising that a vital element for the survival of any totalitarian regime is to take control of what people read because language is power. Authors like Aldus Huxley, George Orwell, and above all Ray Bradbury have masterfully illustrated this point in their novels, the latter showing what happens to a civilisation in which television replaces literacy. People may still be able to read, but they are what we may call literary illiterates. No doubt Mr Gold's message is clear: we have to read for the salvation of our spirit. **Reading Our Lives** William

L. Randall, Elizabeth McKim, 2008-06-03 Against the background of Socrates' insight that the unexamined life is not worth living, *Reading Our Lives: The Poetics of Growing Old* investigates the often overlooked inside dimensions of aging. Despite popular portrayals of mid and later life as entailing inevitable decline, this book looks at aging as potentially a process of poesis, a creative endeavor of fashioning meaning from the ever accumulating texts, memories, and reflections that constitute our inner worlds. At its center is the conviction that although we are constantly reading our lives to some degree anyway, doing so in a mindful manner is critical to our development in the second half of life. Drawing on research in numerous disciplines affected by the so-called narrative turn, including cognitive psychology, neuroscience, and the psychology of aging, authors Randall and McKim articulate a vision of aging that promises to accommodate such time-honored concepts as wisdom and spirituality, one that understands aging as a matter not merely of getting old but of consciously growing old.

In Search of Authority, second edition Stephen Bonnycastle, 1996-01-31 **Literary Reading** David S. Miall, 2006 This is the first major book in English on literary reading to be based on empirical methods. Moving the focus away from interpretation to the experience of literary texts, these studies demonstrate the role played by feeling in readers' responses, showing how feeling performs important functions during reading that cannot be accounted for by cognitive understanding. These studies not only reinvigorate the concept of literariness, they are also thoroughly interdisciplinary, offering a coherent approach to literary reading that draws on literary theory, psychology, neuropsychology, and evolutionary psychology. Several chapters help to introduce the empirical approach for students. My Lifetime Reading Prof. Suvasish
