Reading Between Texts Intertextuality And The Hebrew Bible:

Reading Between Texts Danna Nolan Fewell, 1992-01-01 Intertextuality the reading of one text in terms of another is a diverse practice It is a central and prevalent subject in poststructuralist literary theory Reading between Texts is the first book to address intertextuality as it relates specifically to interpretation of the Hebrew Bible The contributors bring together lucid theoretical discussion and sophisticated interpretations from a variety of backgrounds offering biblical scholars and students a helpful and thorough introduction to the issues and possibilities of intertextuality The Literary Currents in Biblical Interpretation series explores current trends within the discipline of biblical interpretation by dealing with the literary qualities of the Bible the play of its language the coherence of its final form and the relationships between text and readers Biblical interpreters are being challenged to take responsibility for the theological social and ethical implications of their readings This series encourages original readings that breach the confines of traditional biblical criticism

Intertextual Explorations in Deuterocanonical and Cognate Literature Jeremy Corley, Geoffrey David Miller, 2019-05-06 This volume explores the fundamentals of intertextual methodology and summarizes recent scholarship on studies of intertextuality in the deuterocanonical books The essays engage in comparison and analysis of text groups and motifs between canonical deuterocanonical and non biblical texts Moreover the book pays close attention to non literary relationships between different traditions a new feature of research in intertextuality

Intertextuality in Isaiah 24-27 James Todd Hibbard, 2006 J Todd Hibbard examines the way in which Isaiah 24 27 reuses earlier texts and traditions as part of its literary strategy He analyzes those literary connections under the rubric of intertextuality an idea taken over from modern literary studies Intertextuality is normally recognized as describing an orientation to one or more texts but does not define a particular methodology Moreover because intertextuality is a term that is used in biblical studies in a variety of ways the first part of this work seeks to define a methodology based on an intertextual approach that is useful for studying prophetic texts This methodology attempts to understand the ways in which an ancient author may have appropriated an earlier text in a new composition It requires that texts share common vocabulary and themes be chronologically possible and exegetically meaningful to be a true intertextual connection In terms of literary technique the author recognizes that intertextual connections may be forged through citations allusions and echoes Finally he considers several possible purposes for such intertextual connections The major exegetical categories for understanding the intertextual connections noted in Isaiah 24 27 include texts which universalize earlier judgment passages texts which universalize earlier restoration and salvation passages and texts which respond to earlier prophetic texts that are considered unfulfilled

A Feminist Companion to Reading the Bible Athalya Brenner, Carole Fontaine, 2013-08-16 This valuable resource both presents and demonstrates the numerous developments in feminist criticism of the Bible and the enormous range of influence that feminist criticism has come to have in biblical studies The purpose of the book is to raise issues of method that are largely glossed over or merely implied

in most non feminist works on the Bible The editors have included broadly theoretical essays on feminist methods and the various roles they may play in research and pedagogy as well as non feminist essays that have direct bearing on the methods or subject matter that feminists use as well as reading that illustrate the variety of methodological strategies adopted by feminist scholars Some 30 scholars from North America and Europe have contributed to this Companion [Text in Context](#)

A. D. H. Mayes,2000-09-07 The scholarly study of the Old Testament is now marked by a rich diversity of approaches and concerns In the last two decades an interest in the text and the implications for its interpretation is no longer the preserve of a single scholarly community while the reconstruction of the history of the people from whom it derived has been transformed by new methods This new book published under the auspices of the Society for Old Testament Study reflects these new approaches and developments and has a particular concentration on literary and historical study Thus it not only clearly recognizes the diversity now inherent in Old Testament study but also welcomes the integration into its field of the wide range of approaches available in current literary and historical investigation The study of the biblical text and how it is received and interpreted by its various readerships has a certain logical priority over the study of its historical background and authorship Yet an ongoing investigation of issues relating to the latter cannot await definitive conclusions on the former So essays on the text and its reception discuss primary issues which arise in Old Testament study while those on background and authorship reflect the continued vitality of and the fresh perspective possible in more traditional scholarly concerns

the book's meaning and purpose uncertain Feminist and queer interpreters question the appropriation of a woman's story to uphold patriarchal institutions and heteronormative values Such avenues of inquiry lend themselves to questions of narrative desire that is the study of how stories frame our desires and how our own complex longings affect the way we read *An Intertextual Analysis of Zechariah 9-10* Suk Yee Lee, 2015-02-26 This book conducts an in depth study on the ideas about future salvation in Zechariah 9-10 In accommodation of the allusive character of the text Lee uses the methodology of intertextual analysis to examine the markers in the text Having established the moments of intertextuality Lee investigates the sources and their contexts analyzing how the intertexts are used in the new context of the host and exploring how the antecedents shape the reading of the later text Thus Lee argues that Zechariah 9-10 leverages earlier biblical material in order to express its view on restoration which serves as a lens for the prophetic community in Yehud to make sense of their troubled world in the early Persian period ca 440 B C These two chapters envision the return of Yahweh who inaugurates the new age ushering in prosperity and blessings The earlier restoration expectations of Second Zechariah anticipate the formation of an ideal remnant settling in an ideal homeland with Yahweh as king and David as vice regent reigning in Zion The new commonwealth is not only a united society but also a cosmic one with Judah Ephraim and the nations living together in peace **To Each Its Own Meaning, Revised and Expanded** Steven L. McKenzie, Stephen R.
