Reading Abbey Cartularies I:

English Medieval Books Alan Coates, 1999 This history of the books of Reading Abbey covers the period from the abbey's foundation to its dissolution and follows up the dispersal of the book collections to c 1610 It provides valuable material on the use ways in which books were used and about the intellectual life of a medieval monastery By continuing the story beyond the Dissolution and charting the initial stages of the dispersal of the Abbeys books many into the large institutional collections which are their homes today Alan Coates makes a valuable contribution to our understanding of the fate of monastic books and book collecting in the post Dissolution period Reading Abbey Cartularies B. Reading Abbey Cartularies B. R. Kemp, 1987 Henry I C. Warren Hollister, 2008-10-01 Henry I son of William the Conqueror ruled from 1100 to 1135 a time of fundamental change in the Anglo Norman world This long awaited biography written by one of the most distinguished medievalists of his generation offers a major reassessment of Henry's character and reign Challenging the dark and dated portrait of the king as brutal greedy and repressive it argues instead that Henry's rule was based on reason and order C Warren Hollister points out that Henry laid the foundations for judicial and financial institutions usually attributed to his grandson Henry II Royal government was centralized and systematized leading to firm stable and peaceful rule for his subjects in both England and Normandy By mid reign Henry I was the most powerful king in Western Europe and with astute diplomacy an intelligence network and strategic marriages of his children legitimate and illegitimate he was able to undermine the various coalitions mounted against him Henry strove throughout his reign to solidify the Anglo Norman dynasty and his marriage linked the Normans to the Old English line Hollister vividly describes Henry's life and reign places them against the political background of the time and provides analytical studies of the king and his magnates the royal administration and relations between king and church The resulting volume is one that will be welcomed by students and general readers alike **Reading Abbey cartularies** B. Monastic Lordship in Reading, 1350-1600 Joe Chick, 2022 Interrogates the standard view of turbulent and violent town abbey relations through a combination of traditional and new research techniques The power of the medieval Church stretched far beyond the religious sphere Bishops and monasteries held lordship over vast areas of the realm often wielding political and judicial powers beyond those of secular lords Early twentieth century scholarship tended to view towns with monastic lords as highly distinctive characterised by robust lordship and violent town abbey relations and though subsequent studies have done much to modify this view of relationships between towns and their monastic lords the shadow of this dramatic

interpretation still colours our understanding of these situations Conversely through a detailed examination of the governmental guild parish and testamentary records of Reading one of the more populous monastic towns of the period this book presents a view of town abbey relations as largely non violent thus problematising the more traditional characterisation and interrogating its universality Uncovering a remarkably swift transition from monastic lordship to self government it illuminates how urban society functioned under two very different regimes both before and after the dissolution of the monasteries By combining traditional research methods with Social Network Analysis the author moves beyond a focus on the political elites and institutionalised bodies such as the corporation to look at lower status members of society and how they interacted with the successive governing authorities In particular it investigates what continuities and changes to local governance they experienced during this turbulent period
