Dostoevsky's Hamlet in Nineteenth-Century Russia Petra Bjelica, 2025-05-15 Dostoevsky uses Hamlet to address some of the most important problems in Russian culture in the second half of the 19th century Approaching Dostoevsky's engagement with Shakespeare through a focus on his novel Demons Petra Bjelica considers the figure of Hamlet as it connects to Russian national identity spirituality and cultural migration Bjelica argues that Russian Hamletism is a perfect example of how a literary phenomenon forms through a specific culture She reads Dostoevsky's use of Hamlet through the Tsarist government the wide gap between the aristocratic working and peasant class and the educated intelligentsia of the period Russian Hamletism is shown to reflect the hegemony of power as well as the intricate debates that arise via political ideological and philosophical differences between Slavophiles and Westerners The book touches on the translatability and universality of Shakespeare his cultural hegemony and the ethics of appropriating the other by exploring Dostoevsky's highly original interpretation of Hamlet Rather than just referencing the play Dostoevsky's engagement with opposing and contradictory elements of Russian Hamletism dramatize the Hamletian dilemma anew By rethinking literary transmission and the concept of source the intertextuality of Shakespeare and Russian Hamletism in Dostoevsky finds new ground

The Post-Soviet Russian Orthodox Church Katja Richters, 2012-08-21 In recent years the Russian Orthodox Church has become a more prominent part of post Soviet Russia A number of assumptions exist regarding the Church's relationship with the Russian state that the Church has always been dominated by Russia's secular elites that the clerics have not sufficiently fought this domination and occasionally failed to act in the Church's best interest and that the Church was turned into a Soviet institution during the twentieth century This book challenges these assumptions It demonstrates that church state relations in post communist Russia can be seen in a much more differentiated way and that the church is not subservient very much having its own agenda Yet at the same time it is sharing the state's and Russian society's nationalist vision The book analyses the Russian Orthodox Church's political culture focusing on the Putin and Medvedev eras from 2000 It examines the upper echelons of the Moscow Patriarchate in relation to the governing elite and to Russian public opinion explores the role of the church in the formation of state religious policy and the church's role within the Russian military It discusses how the Moscow Patriarchate is asserting itself in former Soviet republics outside Russia especially in Estonia Ukraine and Belarus It concludes by re-emphasising that although the church often mirrors the Kremlin's political preferences it most definitely acts independently

Russian Baptists and Orthodoxy, 1960-1990 Constantine Prokhorov,2014-01-14 Russian Baptists and the Orthodox

Church have had a difficult and at times dramatic relationship over the past century and a half. However, the purpose of this thesis is to examine certain internal connections between these two Christian bodies. Despite the evident dissimilarity in theology, church practice, and traditions, there is common ground which has been largely unexplored. A number of features inevitably brought them together, such as living in the same country over a long period of time, sharing a history and national roots, responding to the same civic concerns, and finally, until recently, using the same Russian Synodal translation of the Bible. This thesis explores first of all the roots of the issue of Orthodox Baptist similarities and dissimilarities in the nineteenth century. The remainder of the thesis focuses on 1960 to 1990. There is a chapter analyzing the way in which, in significant areas, Russian Baptist theology resembled Orthodox thinking. This is followed by a study of church and sacraments which again shows that Russian Baptist approaches had echoes of Orthodoxy. The thesis then explores Baptist liturgy, showing the Orthodox elements that were present. The same connections are then explored in the area of Russian Baptist communal spiritual traditions. The examination of the Bible beliefs and behaviour also indicates the extent to which Russian Baptists mirrored Orthodoxy. Finally, there is an analysis of the popular piety of the Russian Baptists and the way in which they constructed an alternative culture. The basic views of Russian Baptists between the 1960s and 1990 have been drawn from periodicals of the Russian Baptist communities and from interviews with pastors, presbyters, and church members who were part of these communities. This often yields insights into primary theology which, in relation to many issues, differs from official Baptist declarations that tend to stress the more Protestant aspects of Russian Baptist life. The aim of the thesis is to show that in a period in the history of the USSR, when the division between the Western world and the Soviet bloc was marked, there was a strong Eastern orientation among Russian Baptists. This changed when the USSR came to an end. Over a number of years, there was mass emigration of Russian Baptists, and in addition, pro-Western thinking gained considerable ground within the Russian Baptist community. During the period examined here, however, it is possible to uncover a great deal of evidence of Russian Baptists participating in Orthodox theology, spiritual mentality, and culture.

[Account of the Russian Discoveries between Asia commerce between Russia and China](#) William Coxe,2016-09-06 The late Russian Discoveries between Asia and America have for some time engaged the attention of the curious more especially since Dr Robertson s admirable History of America has been in the hands of the public In that valuable performance the elegant and ingenious author has communicated to the world with an accuracy and judgement which so eminently distinguish all his writings the most exact information at that time to be obtained concerning those important discoveries During my stay at Petersburg my inquiries were particularly directed to this interesting subject in order to learn if any new light had been thrown on an article of knowledge of such consequence to the history of mankind For this purpose I endeavoured to collect the respective journals of the several voyages subsequent to the expedition of Beering and Tschirikoff in 1741 with which the celebrated Muller concludes his account of the first Russian navigations During the course of my researches I was informed that a treatise in the German language published at Hamburg and Leipsic in 1776 contained a full and exact narrative of the Russian voyages from 1745 to 1770
