Sense Of Place Reevaluating Regionalism In Canadian And American Writing:

A Sense of Place Christian Riegel, 1998-03 A re evaluation of regionalism in Canadian and American writing A Sense of Place provides a comparative approach to the issue within a continental framework The contributors to this collection including Frank Davey Marjorie Pryse and Jonathan Hart look at a broad range of writers They explore regionalism on both sides of the border in light of the central political cultural literary and theoretical debates of our times **A Sense of Place**, 1998 *History, Literature and the Writing of the Canadian Prairies* Alison Calder, Robert Wardhaugh, 2005-05-16 The Canadian Prairie has long been represented as a timeless and unchanging location defined by settlement and landscape Now a new generation of writers and historians challenge that perception and argue instead that it is a region with an evolving culture and history In a collection of ten essays *History Literature and the Writing of the Canadian Prairies* explores a more contemporary prairie identity and reconfigures the prairie as a construct that is non linear and diverse responding to the impact of geographical historical and political currents These writers explore the connections between document and imagination between history and culture and between geography and time The subjects of the essays range widely the non linear structure of Carol Shield's *The Stone Diaries* the impact of Aberhart's Social Credit Marshall McLuhan and Mesopotamian myth on Robert Kroetsch's prairie postmodernism the role of document in long prairie poems the connection between cultural tourism and heritage the theme of regeneration in Margaret Laurence's *Manawaka* writing the influence of imagination on geography in Thomas Wharton's *Icefields* and the effects on an alpine climber of pre WWII ideological concepts of time and individualism [Toward Defining the Prairies](#) Robert Wardhaugh, 2001-04-30 New ways of thinking about literature and history have radically changed how we think about or even define a region like the Prairie West In fact the very concept of defining has come into question by new theoretical approaches and it may now seem a hopeless endeavour But the process of defining can be just as important as the actual production of a definition *Toward Defining the Prairies* highlights recent approaches to thinking about the Prairie West Bounded by pieces from well known historian Gerald Friesen and Governor General's Award winning writer Robert Kroetsch these 13 essays are as diverse as the region itself In their examination of different aspects of Prairie history literature climate society culture and identity they help to provide a new understanding of this place and of the complexities of its definition *The Cambridge Companion to Canadian Literature* Eva-Marie Kröller, 2004-02-05 This book offers a comprehensive and engaging introduction to major writers genres and topics in Canadian literature Contributors pay attention to the social political and economic developments that have informed literary events Broad surveys of fiction drama and poetry are complemented by chapters on Aboriginal writing francophone writing autobiography literary criticism writing by women and the emergence of urban writing in a country traditionally defined by its regions Also discussed are genres that have a special place in Canadian literature such as nature writing exploration and travel writing and short fiction **Sensing Space** Claire Omhovère, 2007 This book enlarges the

perspective of literary geography which tends to focus on the correspondence between the objective world the geographer addresses and its subjective rendering in art Instead it considers how geography informs fresh aesthetic responses to space in contemporary Canadian literature with specific attention to the writings of Alistair MacLeod Jane Urquhart Anne Michaels Aritha van Herk Rudy Wiebe Robert Kroetsch and Thomas Wharton This broadening leads to a series of interrogations what blanks in conventional landscape writing does physical geography fill and how Where does the efficiency of geography lie beyond its scientific accuracy or descriptive relevance Pondering the role of geography in a work of art therefore amounts to considering what makes geography work as art is there such a thing as a poetics of geography Because the place of the writer and the representation of space remain two central concerns in Canadian writing the texts under scrutiny help elucidate the critical role performed by the geographical imagination a phrase used by theoreticians as diverse as Edward Said Edward Soja or Derek Gregory in the fabrication of symbolic ties between Canadians and the land they have come to share

New Brunswick at the Crossroads Tony Tremblay, 2017-10-25 What is the relationship between literature and the society in which it incubates Are there common political social and economic factors that predominate during periods of heightened literary activity New Brunswick at the Crossroads Literary Ferment and Social Change in the East considers these questions and explores the relationships between periods of creative ferment in New Brunswick and the socio cultural conditions of those times The province's literature is ideally suited to such a study because of its bicultural character in both English and French periods of intense literary creativity occurred at different times and for different reasons What emerges is a cultural geography in New Brunswick that has existed not in isolation from the rest of Canada but often at the creative forefront of imagined alternatives in identity and citizenship At a time when cultural industries are threatened by forces that seek to negate difference and impose uniformity New Brunswick at the Crossroads provides an understanding of the intersection of cultures and social economies contributing to critical discussions about what constitutes the creative in Canadian society especially in rural non central spaces like New Brunswick

The Geographical Imagination of Annie Proulx Alex Hunt, 2010-11-23 This highly readable edited collection focuses on the work of Pulitzer Prize winning author Annie Proulx. Each contributor to this volume explores a different facet of Proulx's striking attention to geography: place, landscape, regional environments and local economies in her writing. Covering all of her novels and short story collections, scholars from the United States, Canada and abroad engage in critical analyses of Proulx's new regionalism, use of geographical settings and themes of displacement and immigration. Taken together, these essays demonstrate Annie Proulx's contribution to new regionalist understandings of place on local, national and global scales. Readers will come away with a better understanding of Proulx's particular landscapes, particularly those of Wyoming, New England, Texas and Newfoundland, and the issues surrounding the significance of these regions in contemporary American culture and literature.

Making it Home Deborah Keahey, 1998-12-01 Traditional approaches to Prairie literature have focussed on the significance of the land in attempts to make a place into a home. The emphasis on the importance of landscape as a defining feature ignores the important roles played by other influences brought to the land, such as history, culture, gender, ethnicity, religion, community, family and occupation. Deborah Keahey considers over 70 years of Canadian Prairie literature, including poetry, autobiography, drama and fiction. The 17 writers range from the well established like Martha Ostenso and Robert Kroetsch to newer writers like Ian Ross and Kelly Rebar. Through their works, she asks whether the Prairies are a physical or a political creation, whether home is made by what you bring with you or what you find when you arrive, and she incorporates the influences and effects far beyond landscape to understand what guides the home-making process of both the writers and their creations. Her study acknowledges that home is a complicated concept and making a place into a home place is a complicated process. Informed by current linguistic, feminist, postcolonial and cultural theory, Keahey explores these concepts in depth and redefines our understanding of place, home and the relationship between them.

History of Literature in Canada Reingard M. Nischik, 2008 The development of literature in Canada with an eye to its multicultural, multiethnic, multilingual nature. From modest colonial beginnings, literature in Canada has arrived at the center stage of world literature. Works by English Canadian writers, both established writers such as Margaret Atwood and new talents such as Yann Martel, make regular appearances on international bestseller lists. French Canadian literature has also found its own voice in the North American and francophone worlds. CanLit has likewise developed into a staple of academic interest pursued in Canadian Studies programs in Canada and around the world. This volume draws on the expertise of scholars from Canada, Germany, Austria and France, tracing Canadian literature from the indigenous oral tradition to the development of English Canadian and French Canadian literature since colonial times. Conceiving of Canada as a single but multifaceted culture, it accounts for specific characteristics of English and French Canadian literatures, such as the vital role of the short story in English Canada or that of the *chanson* in French Canada. Yet special attention is also paid to Aboriginal literature and to the pronounced

Democracy in Canada Donald J. Savoie, 2019-09-02 Canada's representative democracy is confronting important challenges At the top of the list is the growing inability of the national government to perform its most important roles namely mapping out collective actions that resonate in all regions as well as enforcing these measures Others include Parliament's failure to carry out important responsibilities an activist judiciary incessant calls for greater transparency the media's rapidly changing role and a federal government bureaucracy that has lost both its way and its standing Arguing that Canadians must reconsider the origins of their country in order to understand why change is difficult and why they continue to embrace regional identities *Democracy in Canada* explains how Canada's national institutions were shaped by British historical experiences and why there was little effort to bring Canadian realities into the mix As a result the scope and size of government and Canadian federalism have taken on new forms largely outside the Constitution Parliament and now even Cabinet have been pushed aside so that policy makers can design and manage the modern state This also accounts for the average citizen's belief that national institutions cater to economic elites to these institutions own members and to interest groups at citizens own expense A masterwork analysis *Democracy in Canada* investigates the forces shaping the workings of Canadian federalism and the country's national political and bureaucratic institutions
