Kaplan, Benjamin J. Sadock, 1972 **Religion of Fear** David Cady, 2024-01-12 Religion of Fear reveals the story of how a Pentecostal sect the Church of God of the Union Assembly a small splinter group of the holiness Church of God movement evolved into one of the largest and wealthiest cults in America At its height in 1995 the Union Assembly included fifty four churches spread across nineteen states Spanning nearly a hundred years and three generations of family leadership and relying on hundreds of interviews with members and former members David Cady s groundbreaking investigation begins in 1917 with the Church s illiterate but magnetic founder Charlie C T Pratt summoning a congregation of resilient followers with little more than a flair for spectacle As power dynamics stir within the maturing Church Cady turns to C T s fourth son Jesse who conspires to wrest the Union Assembly from his five brothers and dismiss his own parents from the church they had created Jesse dominated the Church with fear and a demand of total obedience from its nearly 15 000 members until his mysterious death at age fifty six As Cady reveals this event triggered a succession crisis in the Pratt family ranks as Jesse s wife fostered her son Jesse Junior s rise to power and spurned other heirs presumptive to the Church Jesse Junior turned out to be a tormented leader who drove his followers to the brink of poverty with an uncompromising demand that they give their all to God and to him The church s fortune squandered and its future under threat Jesse Junior s mother was finally forced to have her favored son removed and defrocked For all its troubling twists and turns Cady s chronicle ends with a minor miracle as Jesse s younger brother Charlie T Pratt III takes over leadership and manages to expel the oppressive air of authoritarianism from the body of the Church and hold the community together in the process *Leader Interventions and Their Consequences in the Interpersonal Process Laboratory* Felice Schulman-Marcus, 1978 Annual Convention American Psychological Association. Annual Convention, 1972 Consists of programs of the conventions New Models for Group Therapy Benjamin J. Sadock, 1972 Psychotherapy & Social Science Review, 1977 **Privacy** United States. Congress. Senate. Committee on Government Operations. Ad Hoc Subcommittee on Privacy and Information Systems, 1974 Treating the Criminal Offender Alexander B. Smith, Louis Berlin, 2013-11-11 The second edition of *Treating the Criminal Offender* was written in an atmosphere of disillusionment and severe criticism of the traditionalist approach to treatment As crime rates soared the voices of the critics rose in volume and intensity And so this third edition revised toward the end of the decade of the 1980s embodies the shift in emphasis from rehabilitating the offender to protecting the community This shift in our opinion does not reject the goal of changing the offender so as to effect his reintegration into society it uses the strategy of intensive

supervision and surveillance only to effect the desired goal The use of electronics to monitor the offender s whereabouts and the swift ap plication of punitive measures following the awareness of any violation are extrinsic techniques of control It is our opinion that for the deep more lasting changes in behavior some form of casework counseling and or psy chotherapeutic intervention is essential We are the cohorts who believe in the effectiveness of such treatment modalities when and if applied to the right target population at the appropriate time *Classics in Group Psychotherapy* K. Roy MacKenzie,American Group Psychotherapy Association,1992-02-14 Consists of articles reprinted from various sources from 1905 1981 Modern Group Book ,1972 *Phases* Bernard Lievegoed,2013-05-01 The human biography is a symphony which each individual personally composes While each person s path in life is a unique and individual work of art the human being meets certain milestones from the period of adolescence to old age which are universal in nature Regardless of background critical outer and inner stages must be passed through A bestseller since it was first published *Phases* describes each period of life adolescence the twenties thirties forties etc and looks at the inner qualities and challenges that arise at each stage The author argues that the various biological and psychological explanations of the human being are incomplete If the inner self the ego of each individual is recognized and acknowledged then the peculiarities of one s particular life path and its challenges take on new meaning BERNARD LIEVEGOED psychiatrist educator and anthroposophist brought half a century of clinical practice studious observation and personal insight into the writing of this book His overview of the course of human life and professional career of male female relationships and the sometimes misleading picture of the human being presented by the various psychological schools of thought has made this book essential reading for all those interested in attaining an insight into the mystery of life **Treatment of Psychological Disorders** Stanley B. Messer,Peter E. Nathan,1976 *Social Learning and Change* Howard Goldstein,1981 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1975 Easternization of the West Colin Campbell,2015-11-17 In this provocative and groundbreaking book Colin Campbell shows that the civilization of the West is undergoing a revolutionary process of change one in which features that have characterized the West for two thousand years are in the process of being marginalized to be replaced by those more often associated with the civilizations of the East Moving far beyond popular trends Campbell assembles a powerful range of evidence to show how Easternization has been building throughout the last century especially since the 1960s Campbell demonstrates how it was largely in the 1960s that new interpretations in theology political thought and science were widely adopted by a new generation of young culture carriers This highly original and wide ranging book advances a thesis that will be of interest to scholars in many disciplines in the humanities and social sciences **Kaplan and Sadock's Comprehensive Text of Psychiatry** Robert Boland,Marcia L.
