Separate God The Esoteric Christianity Of Gnosticism:

A Separate God Simone Pétrement,1990 **First Century Gnosticism** Gerard van Groningen,1967 *Esoteric Traditions in Islamic Thought* Leonard Lewisohn,2024-09-12 The notion of esoteric knowledge is one of the pillars of Islamic intellectual tradition Though most visible in Sufism it also dominated the first three and a half centuries of Shi ite thought In this rich anthology Leonard Lewisohn explores Islamic esotericism through the works of eleven authors who flourished in Persia Central Asia and Asia Minor from the eleventh to the nineteenth centuries He presents excerpts from each text in translation accompanying these with introductions to the author s life works and thought In the course of his erudite and enlightening commentary he explores the common ground of esoteric thought and terminology revealing a unity of perspective among Muslim thinkers *Gnosticism and the History of Religions* David G. Robertson,2021-08-12 Building on critical work in biblical studies which shows how a historically bounded heretical tradition called Gnosticism was invented this work focuses on the following stage in which it was essentialised into a sui generis universal category of religion At the same time it shows how Gnosticism became a religious self identifier with a number of sizable contemporary groups identifying as Gnostics today drawing on the same discourses This book provides a history of this problematic category and its relationship with scholarly and popular discourse on religion in the twentieth century It uses a critical historical method to show how and why Gnosis Gnostic and Gnosticism were taken up by specific groups and individuals practitioners and scholars at different times It shows how ideas about Gnosticism developed in late nineteenth and twentieth century scholarship drawing from continental phenomenology Jungian psychology and post Holocaust theology to be constructed as a perennial religious current based on special knowledge of the divine in a corrupt world David G Robertson challenges how scholars interact with the category Gnosticism and contributes to our understanding of the complex relationship between primary sources academics and practitioners in category formation **History of the Concept of Mind** Paul S. Macdonald,2019-07-23 Exploring the roads less travelled MacDonald continues his monumental essay in the history of ideas The history of heterodox ideas about the concept of mind takes the reader from the earliest records about human nature in Ancient Egypt the Ancient Near East and the Zoroastrian religion through the secret teachings in the Hermetic and Gnostic scriptures and into the transformation of ideas about the mind soul and spirit in the late antique and early medieval epochs These transitions include discussion of the influence of Central Asian shamanism Manichean ideas about the soul in light and darkness and Neoplatonic theurgy working on god within Sections on the medieval period are concerned with the rediscovery of magical practices and occult doctrines from Roger Bacon to Francis Bacon the adaptation of Neoplatonic and esoteric ideas in the medieval Christian mystics and the survival of these ideas mixed with natural science in the works of von Helmont Leibniz and Goethe The book concludes with an investigation of the many forms of dualism in accounts of the human mind and soul and the concept of dual life which underpins our aspiration to understand how humans could have an

immortal nature like the gods The Devil's Redemption : 2 Volumes Michael J. McClymond, 2018-06-05 2018 Book Award Winner The Gospel Coalition Academic Theology A Choice Outstanding Academic Title for 2019 Will all evil finally turn to good or does some evil remain stubbornly opposed to God and God's goodness Will even the devil be redeemed Addressing a theological issue of perennial interest this comprehensive book in two volumes surveys the history of Christian universalism from the second to the twenty first century and offers an interpretation of how and why universalist belief arose The author explores what the church has taught about universal salvation and hell and critiques universalism from a biblical philosophical and theological standpoint He shows that the effort to extend grace to everyone undermines the principle of grace for anyone Comparing Christianities April D. DeConick, 2023-10-09 A ground breaking introductory textbook for the study of the New Testament and the first Christians written for the next generation of students Comparing Christianities An Introduction to the New Testament and the First Christians maps the historical rise of Christianity out of a network of early Christian movements This major new textbook systematically explores the struggles to define the faith by presenting Christianity as the result of a lengthy process of religious consolidation which emerged from a landscape of persistent Christian diversity The book delves into the history of the first five generations of Christians from Paul to Origen The first chapter considers the challenges of constructing Christian histories and offers a new model of Christian families to organize and explain the emergence and competition of different varieties of Christianity Each successive chapter focuses on key issues that Christian leaders engaged over the centuries demonstrating how the questions they posed and the answers they provided gave Christianity its distinct shape As the movements competed for social advantage Christians began identifying certain Christian movements as enemies and consolidated against them The final chapter schematizes the Christians studied in the book into three families of Christian movements based on the particular God they worshipped and other shared patterns of thought and practice This chapter also explains where the varieties of Christianities came from and how the process of consolidation undertaken by some churches shaped Christian identity within a forge of intolerance that still affects us today Comparing Christianities explores the answers to questions Who were the early Christians and what did they write What did Christians think about sex women immortality Judaism suffering and death What rituals did the first Christians practice and what did their religious experiences mean to them How did Christians live in a Roman dominated world How did the first Christians explain the origins of their movement Comparing Christianities An Introduction to the New Testament and the First Christians serves as an excellent primary textbook in undergraduate classrooms for Introduction to Christianity Introduction to Religion New Testament Studies Christian Origins World Religions and Western World Religions and a thought provoking resource for anyone wishing to know more about Christianity **A Different Gospel** D. R. McConnell, 1995-01-01 The name it claim it theology of the Word Faith Movement is presented as biblical but is it In this compelling book McConnell documents the historical link between faith theology and New Thought metaphysics He then

analyzes faith theology's doctrines of healing and prosperity as well as its understanding of the atonement of Christ to show how they deviate from biblical teaching This updated edition features a foreword by Hank Hanegraaff and an afterword by McConnell Softcover from Hendrickson **Gnostics** Sean Martin, 2010-08-01 Gnosticism is the name given to various religious schools that proliferated in the first centuries after Christ nearly becoming the dominant form of Christianity but was eventually branded as heretical by the emerging Christian church The long and diverse history of Gnosticism is recounted here as well as reasons for its continued relevance today Although some Gnostic beliefs are close to mainstream Christianity others examined here include that the world is imperfect because it was created by an evil god who was constantly at war with the true good God that Christ and Satan were brothers that reincarnation exists and that women are the equal of men Also covered is the influence Gnostics had on the Renaissance the Enlightenment psychologist Carl Jung the Existentialists the New Age movement and writers as diverse as William Blake W B Yeats Albert Camus and Philip K Dick

Gnosticism Stephan A. Hoeller, 2002-07-01 Gnosticism developed alongside Judeo Christianity over two thousand years ago but with an important difference It emphasizes not faith but direct perception of God Gnosticism being derived from the Greek word gnosis meaning knowledge Given the controversial premise that one can know God directly the history of Gnosticism is an unfolding drama of passion political intrigue martyrdom and mystery Dr Hoeller traces this fascinating story throughout time and shows how Gnosticism has inspired such great thinkers as Voltaire Blake Yeats Hesse Melville and Jung

Revival of the Gnostic Heresy J. Morris, 2008-11-24 In this rigorous and provocative study Joe E Morris argues that the basic tenets and practices of Fundamentalism are those of ancient Christian Gnosticism Drawing on extensive research and careful analysis Morris aligns the two religious phenomena point by point tenet by tenet Along the way he provides insights into the key hermeneutic of Fundamentalism inerrancy of Scripture highlighting the multiple problems with the positions of literal and inerrant interpretation their impracticality and unfeasibility and their contradiction with their own conservative doctrine namely the Incarnation of Jesus Christ This groundbreaking book dramatically recasts our understanding of the history of Christianity and gives important context to modern day religious debates [Has God Said?](#)

John Douglas Morrison, 2006-03-01 Has God said Has God actually spoken declared himself and his purposes to us Historically the Christian faith has affirmed God's redemptive revelatory speaking as historical contentful redemptive centrally in Jesus Christ and under Christ and by the Spirit in the text of Holy Scripture But in the past three centuries developments in Western culture have created a crisis in relation to historical divine authority The modern reintroduction of destructive dualisms cosmological and epistemological via Descartes Newton Spinoza and Kant have injured not only the physical sciences e g positivism but Christian theology as well The resulting eclipse of God has permeated Western culture In terms of the Christian understanding of revelation it has meant the separation of God from historical action the rejection of God's actual self declaration and especially in textual form Holy Scripture After critical analysis of these dualistic

developments this book presents the problematic effects in both Protestant Schleiermacher Bultmann Tillich and Roman Catholic Rahner Dulles theology The thought and influence of Karl Barth on the nature of Scripture is examined and distinguished from most Barthian approaches The effects of dualistic Barthian thought on contemporary evangelical views of Scripture Pinnock Fackre Bloesch are also critically analyzed and responses made Helm Wolterstorff Packer The final chapter is a christocentric multileveled reformulation of the classical Scripture Principle via Einstein Torrance and Calvin that reaffirms the church's historical identity thesis that Holy Scripture is the written Word of God a crucial aspect of God's larger redemptive revelatory purpose in Christ
