Subcommittee on Oversight**

September 11 More Effective Collaborator:

September 11 more effective collaboration could enhance charitable organizations' contributions in disasters : report to the Ranking Minority Member, Committee on Finance, U.S. Senate. , Meeting the Challenge of 9/11: Blueprints for More Effective Government Thomas H. Stanton,2014-12-18 9 11 revealed serious public sector shortcomings in such areas as border security and immigration control cybersecurity and first responses to hostile acts This book focuses on how to make government more effective especially in our post 9 11 era of heightened concern for national and homeland security Meeting the Challenge of 9 11 is a top to bottom guidebook for improving government organization and performance While it specifically addresses the key issues of homeland security biodefense border security immigration control and infrastructure protection it has a broader agenda the renewal of an effective well managed government The chapter authors have extensive senior level experience in managing government organizations or in analyzing government organization and management Most are Fellows of the National Academy of Public Administration and active participants in NAPA s Standing Panel on Executive Organization and Management **To review the response by charities to Hurricane Katrina** United States. Congress. House. Committee on Ways and Means. Subcommittee on Oversight,2006 **Interagency Collaboration** Janet A. St. Laurent,2010 While national security activities which range from planning for an influenza pandemic to Iraq reconstruction require collaboration among multiple agencies the mechanisms used for such activities may not provide the means for interagency collaboration needed to meet modern national security challenges This report addresses actions needed to enhance interagency collaboration for national security activities 1 the development and implementation of overarching integrated strategies 2 the creation of collaborative organizations 3 the development of a well trained workforce and 4 the sharing and integration of national security information across agencies Charts and tables Major Management Challenges and Program Risks United States. General Accounting Office,2003 **Ten Years After 9/11- 2011** United States. Congress. Senate. Committee on Homeland Security and Governmental Affairs,2012 Electronic Government Linda D. Koontz,2004-03 In accordance with the President s management agenda the Office of Management and Budget OMB has sponsored initiatives to promote expansion of electronic gov t the use of information technology particularly Web based Internet applications to enhance gov t services Each initiative demands a high degree of collaboration among organizations For four of these initiatives the GAO was asked to determine among other things their implementation progress and the extent of collaboration among agencies and other parties involved GAO determined that all four of the e government initiatives that it reviewed have made progress in meeting the objectives and milestones of their early phase Charts and tables *Nonprofit Sector: Increasing Numbers and Key Role in Delivering Federal Services* ,2007 Nonprofit Sector , Hayek: A Collaborative Biography Robert Leeson,2017-11-01 This book is the seventh volume in this series which explores the life of Nobel Price winning economist F A Hayek 1899 1992 The volume uses archival material juxtaposed with

Hayek's published work to challenge the existing perceptions of his life and thought. It examines the methods by which Hayek interacted with and schemed against the knowledge communities that he encountered during his very long life. Chapters explore the rules of engagement that Hayek employed when interacting with five leading knowledge communities including the Nobel Prize selection committee who were led to believe his claim about having predicted the Great Depression. It also explores his interactions with William Beveridge the founder of the modern British Welfare State, A. C. Pigou the founder of the market school, J. M. Keynes, Sir Arthur Lewis, and Abba Lerner.

The Network Governance in Response to Acts of Terrorism Naim Kapucu, 2012. High performance during catastrophic terrorist events requires the ability to assess and adapt capacity rapidly, restore or enhance disrupted or inadequate communications, utilize flexible decision making swiftly, and expand coordination and trust between multiple emergency and crisis response agencies. These requirements are superimposed on conventional administrative systems that rely on relatively rigid plans, decision protocols, and formal relationships that assume smooth sailing and uninterrupted communications and coordination. Network Governance in Response to Acts of Terrorism focuses on the inter-organizational performance and coordinated response to recent terrorist incidents across different national legal and cultural contexts in New York, Bali, Istanbul, Madrid, London, and Mumbai. Effortlessly combining each case study with content analyses of news reports from local and national newspapers, situation reports from government emergency crisis management agencies, and interviews with public managers, community leaders, and nonprofit executives involved in response operations, Naim Kapucu presents an overview of how different countries tackle emergencies by employing various collaborative decision making processes, thus offering a global perspective with different approaches. These features make this book an important read for both scholars and practitioners eager to reconcile existing decision making theories with practice.

9/11: Mental Health in the Wake of Terrorist Attacks Yuval Neria, Raz Gross, Randall D. Marshall, Ezra S. Susser, 2006-09-14. Does terrorism have a unique and significant emotional and behavioral impact among adults and children? In what way does the impact of terrorism exceed the individual level and affect communities and specific professional groups? and test different leadership styles? How were professional communities of mental health clinicians, policy makers, and researchers mobilized to respond to the emerging needs post-disaster? What are the lessons learned from the work conducted after 9/11 and the implications for future disaster mental health work and preparedness efforts? Yuval Neria and his team are uniquely placed to answer these questions, having been involved in modifying ongoing trials and setting up new ones in New York to address these issues straight after the attacks. No psychiatrist, mental health professional, or policy maker should be without this book.

Collaboration Research for Crisis Management Teams Jill L. Drury, Emily Beaton, Lindsley Boiney, Michael O. Duncan, Robin GreenPope, Maurice D. Howland, Gary L. Klein, 2010-03-12. To aid research in crisis management, we reviewed the literature pertaining to synchronous, non-collocated, cross-organizational, time-sensitive collaboration. We examined the theoretical constructs that

researchers have proposed for collaborative systems and determined that several of these such as common ground and awareness theory have particular applicability to crisis management We reviewed collaboration models that were developed to provide frameworks for understanding the multiple facets of technological support to group work Because teams normally need to come to a common understanding of the situation and the relevant decisions we examined research in team awareness sensemaking and decision making Types of group tasks affect technology use and adoption so we considered the literature surrounding these topics as well before turning to case studies of new collaboration technologies We end with our assessment of the findings most relevant to developing new crisis management collaboration approaches including procedures needed functionality and candidate capabilities

Interagency Collaborative Arrangements and Activities: Types, Rationales, Considerations,2011 **Environmental Health Perspectives** ,1993 *Data Mining for Intelligence, Fraud & Criminal Detection* Christopher Westphal,2008-12-22 In 2004 the Government Accountability Office provided a report detailing approximately 200 government based data mining projects While there is comfort in knowing that there are many effective systems that comfort isn't worth much unless we can determine that these systems are being effectively and responsibly employed Written by one of the most [Tax-exempt Charitable Organizations](#) United States.
