Thailand David Smyth,1998 Since c1970 Thailand s position in the world has

changed from potential communist domino to one of the world's most dynamic economies. The confrontational politics of the 1970s with the student-led revolution of 1973 and the bloody right-wing backlash. In 1976 were replaced by a new consensus in the following decade. A concerted export drive sparked off a tremendous economic boom during the 1980s and early 1990s. Tourism also expanded rapidly and is now the single largest foreign exchange earner. Economic Success has however been at a cost. Each year Bangkok has become more chaotic in the face of increased traffic and an Unprecedented building boom and nationally there has been a widening gap between the haves and the have-nots. Moreover Thailand is experiencing a potential AIDS time bomb and serious environmental degradation. Despite Such pressures and the sudden economic crisis of mid 1997 Thailand has enjoyed an enviable record of stability in recent years
