Fundamentals of Criminology Kelly Frailing,Dee Wood Harper,2013-07-19 Fundamentals of Criminology New Dimensions delivers a comprehensive and comprehensible introduction to the discipline of criminology As the title implies it covers the fundamentals of criminology including the major theories of crime causation classic and current empirical tests of those theories the strengths and weaknesses and the policy implications of each It also describes the types of crime and provides current rates trends over time and theoretical explanations for each as well as a discussion of characteristics of offenders and victims What sets this

book apart from the many other fine criminology textbooks out there is its inclusion of some new dimensions of criminology. The new dimensions in this book include but are not limited to research designs in criminology, new theories of crime causation, crime in different contexts, connections between criminology and criminal justice policy, and a number of lingering issues for both disciplines. In combination with the fundamentals, these new dimensions are designed to provide readers with the richest, most complete understanding of what crime is, how much of it there is, what causes it, and what to do about it, as well as the ability and desire to pose important questions for the future of both criminology and criminal justice. The authors have produced a comprehensive, readable, and thoroughly interesting text covering the topic of sociological criminology. Yes, there are a plethora of texts in this area, but Harper and Frailing's addition to the field has a number of features moving it ahead of the competition. There is in-depth coverage of emerging areas in crime, including cybercrime and human trafficking, as well as an excellent section on how disasters augment the opportunities for crime by hindering capable guardianship. The authors' arguments for evidence-based crime prevention strategies and public policies are compelling. *Fundamentals of Criminology* is worthy of the closest consideration by instructors teaching undergraduate criminology courses. Jay Corzine, professor of sociology, University of Central Florida. *Kill You Last*, Todd Strasser, 2011-11-08. They always agreed to meet me. Of course I told them I was bringing them money. Her dad provides a luxurious lifestyle for his family through his photography business. He makes a ton of money taking headshots of pretty young teens who are desperate to become models. Shelby has always enjoyed driving around town in a red sports car, shopping with her best friend at her side. And her Mom is laidback, so it's all good. However, as reports of girls disappearing from nearby towns start to appear on the news, Shelby's seemingly perfect life begins to fall apart. The three missing girls have one thing in common: they were all clients of her dad's photography business. Secrets begin to surface as the investigation continues. Shelby receives threatening e-mails, battles the nosy media, and tries to keep her family together. Now that her dad is implicated in the disappearances, can Shelby figure out a way to clear his name? Or is dad not as innocent as he seems? **PRAISE FOR BLOOD ON MY HANDS**: A rare teen thriller with an actual mystery, this is as quickly paced as it is heart-wrenching. Booklist.
