*The Future of Serious Art* Bidisha, 2020-11-12 Where and who do we want to be How might we get there What might happen if we stay on our current course In *The Future of Serious Art* Bidisha uses her personal journey through novels TV and film to mirror the seismic changes that have occurred in culture and its industries in recent years The digital revolution has brought all of TV cinema and music into the palms of our hands It's easier than ever to bring stories to life but what happens when artistic work is rebranded as content creation Where does this leave literary novelists and arthouse filmmakers What about those auteur directors who make mainstream but thoughtful films for the big screen As a storyteller herself and a woman of colour who isn't a millennial Bidisha asks who is taken seriously as an artist what is taken seriously as art now and how that might change over the next century This brief but mighty book is one of five that comprise the first set of FUTURES essays Each standalone book presents the author's original vision of a singular aspect of the future which inspires in them hope or reticence optimism or fear Read individually these essays will inform entertain and challenge Together they form a picture of what might lie ahead and ask the reader to imagine how we might make the transition from here to there from now to then

**Contemporary Art and the Home** Colin Painter, 2020-05-26 The home is for many people the location for their most intense relationships with visual things Because they are constructed through the objects we choose domestic spaces are deeply revealing of a range of cultural issues How is our interpretation of an object affected by the domestic environment in which it is placed Why choose a stainless steel teapot over a leopard print one How do the images hanging on the walls of our homes arrive there In placing contemporary art in the context of the ordinary home this book embarks on the contentious topic of whether high art impacts on ordinary people What is the size and nature of the audience for contemporary art in Britain Do people really visit more art galleries than attend football matches What is the significance of the home in relation to such questions Indeed what

constitutes art in the home This book carefully unpicks these questions as well as the troubled relationship between the home as a place of comfort and reassurance and the often unsettling and challenging images offered by contemporary art Within the art world the home has been addressed as a subject and even used as a temporary gallery and a space for installations and yet it is not common for works by today's avant garde artists to be conceived and marketed to participate in the domestic lives that most people live Handsomely illustrated this book unites contemporary art craft and design with sociology anthropology and cultural studies to provide an unusual and forthright addition to ongoing art and culture debates
