

ALEXANDRA TRAINING HOMIE. FOR DOMESTIC SERVANTS.

IN

It was pointed out at a recent meeting of the Union that there were plenty of girls in Victoria ready to become domestic servants under certain conditions. Of course the aspiring servants will be allowed to choose their own conditions, but their prospective mistresses think one essential condition is their complete conversion. The conversion is to be brought about by passing them through a training institution.

OUT

ON WEDNESDAY.

MISTRESS.—Oh, there you are, Mary Ann. I want you particularly. You know it is my day at home.

MAID.—I'm very sorry, but you'll have to change it, ma'am. Wednesday is my day at home.

10. But the worst prevent the girls sticking out for suitable conditions. "I can't wash clothes," says Mary Ann. "That's all right; washing is sent out," replies the mistress. "I can't iron." "Ironing is sent out." "I can't scrub." "We have a woman in." "I can't look after children." "Oh," chips in the master, "we have two, but we can kill them."

THE LADY OF THE HOUSE.—Have you seen my husband? Ah, there you are, John. I want you to come with me. You can't have him, my dear. It's the servants' picnic to-day, and I want him to carry this basket.

MISTRESS.—Why, Susan, those are my things you have on?
SUSAN.—Yes, mum. I engaged to be a servant under suitable conditions, and the privilege of wearing your clothes is one of them.

MISTRESS.—"What, not satisfied, Jane? Why, we do all the work."
MAID.—Yes, ma'am, but you don't do it well enough for me."

Bois,2014-12-03 Early essays from the sociologist displaying the beginnings of his views on politics society and Black Americans status in the United States This volume assembles essential essays some published only posthumously others obscure another only recently translated by W E B Du Bois from 1894 to early 1906 They show the first formulations of some of his most famous ideas namely the veil double consciousness and the problem of the color line Moreover the deep historical sense of the formation of the modern world that informs Du Bois s thought and gave rise to his understanding of the problem of the color line is on display here Indeed the essays constitute an essential companion to Du Bois s 1903 masterpiece The Souls of Black Folk The collection is based on two editorial principles presenting the essays in their entirety and in strict chronological order Copious annotation affords both student and mature scholar an unprecedented grasp of the range and depth of Du Bois s everyday intellectual and scholarly reference These essays commence at the moment of Du Bois s return to the United States from two years of graduate level study in Europe at the University of Berlin At their center is the moment of Du Bois s first full self reflexive formulation of a sense of vocation as a student and scholar in the pursuit of the human sciences in their still nascent disciplinary organization that is the institutionalization of a generalized sociology or general ethnology as they could be brought to bear on the study of the situation of the so called Negro question in the United States in all of its multiply refracting dimensions They close with Du Bois s realization that the commitments orienting his work and intellectual practice demanded that he move beyond the institutional frames for the practice of the human sciences The ideas developed in these early essays remained the fundamental matrix for the ongoing development of Du Bois s thought The essays gathered here will therefore serve as the essential reference for those seeking to understand the most profound registers of this major American thinker A seminal contribution to the history of modern thought Compiled and edited by the world s preeminent scholar of early Du Boisian thought these texts represent his most generative period when Du Bois engaged every discipline helped construct modern social science employed critical inquiry as a weapon of antiracism and political liberation and always set his sites on the entire world We know this not by the essays alone but by Nahum Dimitri Chandler s brilliant original and quite riveting introduction If you are coming to Du Bois for the first time of the 500th time this book is a must read Robin D G Kelley author of Freedom Dreams The Black Radical Imagination [Globalising Housework](#) Laura Humphreys,2021-04-26 This book shows how international influences profoundly shaped the English home of Victorian and Edwardian London homes which in turn influenced Britain s and Britons place on the world stage The period between 1850 and 1914 was one of fundamental global change when London homes were subject to new expanding influences that shaped how residents cleaned ate and cared for family It was also the golden age of domesticity when the making and maintaining of home expressed people s experience of society class race and politics Focusing on the everyday toil of housework the chapters in this volume show the English home as profoundly global conglomeration of people technology and things It examines a broad spectrum of sources from patents to ice cream makers and explores domestic

histories through original readings and critiques of printed sources material culture and visual ephemera **Problems in Modern Latin American History** James A. Wood, John Charles Chasteen, 2009-01-16 Now in its third edition this leading reader has been updated to make it even more relevant to the study of contemporary Latin America This edition includes an entirely new chapter The New Left Turn and the globalization chapter has been thoroughly revised to reflect the rapid pace of change over the past five years The book continues to offer a rich variety of materials that can be tailored to the needs of individual instructors The reader's unique and successful chapter organization provides a thematic complement to narrative accounts of modern Latin American history By focusing each chapter on a single concept or interpretive problem such as nationalism women's rights or social revolution the text engages students in the analysis of historical sources and at the same time introduces them to the twists and turns of historiography In addition the book includes several reading images sections that call on students to evaluate visual materials With its innovative combination of primary and secondary sources and editorial analysis this text is designed specifically to stimulate critical thinking in a wide range of courses on Latin American history since independence The Problem of Party Government Richard Rose, 2015-12-22 *The structure of government and the challenge of climate change* Great Britain: Parliament: House of Commons: Environmental Audit Committee, 2007-10-29 The Committee's report finds that over the past decade the Government has failed to rise fully to the domestic challenge of climate change and its likely failure to reach its domestic target on reducing carbon dioxide emissions will have a damaging impact on the UK's international leadership role in reaching a post Kyoto agreement Although the Government has introduced some new arrangements for co-ordinating climate change policy more effectively across Whitehall the scale of the challenge and the complexity involved in radically restructuring the economy to bring about the needed emission reduction targets requires further changes There is a need for a strategic review of Government action to ensure that the leadership and responsibility for the development and delivery of climate change mitigation and adaptation policies is clear as well as a new long term policy framework to ensure that policies introduced today do not undermine our ability to reduce emissions in the future The Committee also recommends that a new and authoritative body be established within the Cabinet Office to drive forward policy and to diminish the potential for a conflict of objectives between departments *Scientific Methodology in Nineteenth Century Britain* Charles H. Pence, 2025-09-25 This collection of primary sources examines scientific methodology in Britain during the long nineteenth century The nineteenth century played host to the development for the first time of statistical and probabilistic methods across the biological human and social sciences A new kind of quantified statistical social science came into being Such innovations were quickly marshaled for use in the life sciences from evolution to agriculture to eugenics This title will be of great interest to students of the history of philosophy and the history of science *Alcuin's Recreational Mathematics* Marcel Danesi, 2024-11-01 Propositiones ad acuendos juvenes Problems to Sharpen the Young is a ninth century book written by medieval teacher and

scholar Alcuin of York Today it has become one of the foundational texts in what is commonly called recreational mathematics The book has been translated in many languages and analysed from various mathematical angles and perspectives from contemporary arithmetic and geometry to the nature of sequences It is not only a collection of ingenious and challenging puzzles but the core ideas collected in this book have become major themes and branches of mathematics Here Marcel Danesi revisits all fifty three problems in Alcuin s original text providing detailed solutions and analyses Alcuin s Recreational Mathematics examines the problems in the Propositiones in easy to follow language extracting from them the notions and techniques that today constitute basic mathematics Each chapter discusses Alcuin s problems more broadly and ends with ten exploratory puzzles based on Alcuin s original problems and related themes Answers and detailed solutions are included at the back Alcuin s Recreational Mathematics demonstrates how Alcuin s Propositiones puts basic mathematical thinking on display via ingenious problems that often require outside of the box thinking constituting an original and imaginative investigation of mathematics in its essence
