that such an evaluation would require monthly data on the outcome of rape cases before and after the reforms were implemented as well as qualitative data on the attitudes of criminal justice officials toward the reforms. Because states do not generate monthly data on case outcomes we would have to collect the data ourselves from court records maintained by individual jurisdictions. To obtain an adequate number of cases for the time series analysis we would have to select our sites from large urban jurisdictions scattered throughout the United States.

Social Psychology and Human Sexuality Roy F. Baumeister, 2001. Presents a selected group of influential articles dealing specifically with the social aspects of sexuality. Topics covered include differences between male and female sexuality, virginity, harassment, rape, and coercion, and jealousy.

Treating Stress In Families..... Charles Figley, 2013-05-24. Provides an overview of the causes and treatment approaches for counseling families under stress and focuses on several examples of extreme tension.
