Bauer, 2009-01-01 American women novelists of the late nineteenth and early twentieth centuries registered a call for a new sexual freedom Dale Bauer contends By creating a lexicon of sex expression many authors explored sexuality as part of a discourse about women s needs rather than confining it to the realm of sentiments where it had been relegated if broached at all by earlier writers This new rhetoric of sexuality enabled critical conversations about who had sex when in life they had it and how it signified Whether liberating or repressive sexuality became a potential force for female agency in these women s novels Bauer explains insofar as these novelists seized the power of rhetoric to establish their intellectual authority Thus Bauer argues they helped transform the traditional ideal of sexual purity into a new goal of sexual pleasure defining in their fiction what intimacy between equals might become Analyzing the work of canonical as well as popular writers including Edith Wharton Anzia Yezierska Julia Peterkin and Fannie Hurst among others Bauer demonstrates that the new sexualization of American culture was both material and rhetorical **Sexual Indulgence and Denial: Variations on Continence**
