Sexual Power Feminism And The Family In America:

Sexual Power Carolyn Johnston,1992 Offers an opportunity to view the history of feminism and the family from a fresh perspective Since the early 1970s scholars have argued defined and refined a wide range of interpretations of American women s lives Despite the richness of the recent literature few interpretations sufficiently credit women s family and sexual experiences for the emergence of feminism and the construction of pro family agendas Thus Johnston s approach offers an opportunity to view the history of feminism and the family from a fresh perspective Much of the literature on feminism has focused on women s oppression and victimization rather than on the power that women historically have exerted Johnston s interpretation of American feminism differs from previous works because she argues that the gradual growth of feminist consciousness lies not simply in oppression or feelings of victimization but paradoxically in a growing sense of the empowerment of women as wives and mothers She traces how reproduction sexuality domesticity and motherhood have been socially constructed and examines how feminists and anti feminists have fought on the terrain of family issues Johnston explores critical questions concerning American women s sexual lives How have women s empowering experiences in the family shaped feminist consciousness and action How have feminists confronted family issues How have women exerted sexual power How was it contained within the limits of patriarchal society at times while at other times it fueled the fires of feminist rebellion How have gender and class issues affected domestic politics and feminism

Not in This Family Heather Murray,2012-02-10 Many Americans hold fast to the notion that gay men and women more often than not have been ostracized from disapproving families Not in This Family challenges this myth and shows how kinship ties were an animating force in gay culture politics and consciousness throughout the latter half of the twentieth century Historian Heather Murray gives voice to gays and their parents through an extensive use of introspective writings particularly personal correspondence and diaries as well as through published memoirs fiction poetry song lyrics movies and visual and print media Starting in the late 1940s and 1950s Not in This Family covers the entire postwar period including the gay liberation and lesbian feminist movements of the 1960s and 1970s the establishment of PFLAG Parents Families and Friends of Lesbians and Gays and the AIDS crisis of the 1980s and 1990s Ending her story with an examination of contemporary coming out rituals Murray shows how the personal that was once private became political and finally public In exploring the intimate reciprocal relationship of gay children and their parents Not in This Family also chronicles larger cultural shifts in privacy discretion and public revelation and the very purpose of family relations Murray shows that private bedrooms and consumer culture social movements and psychological fashions all had a part to play in transforming the modern family

Integrated Activism Alexis Zeigler,2013-08-13 How do peak oil climate change and the limits of growth affect abortion rights income equality and civil liberty In this impassioned treatise author and activist Alexis Zeigler reveals

the hidden connections between ecology economics politics and social justice and shows us how to use these connections to effect real long lasting change Most activist movements says Zeigler suffer from a kind of tunnel vision in which the true causes and resulting side effects of the desired change are left unexamined rendering the movements shortsighted and unaware of their own long term fallout We cannot effectively address our problems in isolation or with ecological blinders on Instead we must integrate our activism and ensure that all strategies and actions take into account the historically demonstrated fact that a society s environmental resources ultimately define its level of freedom fairness and financial equity Packed with surprising facts and eye opening arguments Integrated Activism is a must read not only for every serious activist but also for anyone looking for a solid creditable philosophy and approach to building a fairer freer more sustainable future

We Need to Talk about Family Roberta Garrett, Tracey Jensen, Angie Voela, 2016-08-17 We are the first generation in recent history to not know if our children will have a better life than us Over the past thirty years the dream of upward mobility and stable and securely paid employment has dissipated This collection draws together insights from the disciplines of cultural studies literary theory psychoanalysis psychosocial studies social policy and sociology in order to explore the complex and contested status of the family under neoliberalism At one end of the spectrum the intensification of work and the normalisation of long hours working culture have undermined the time and energy available for private family life At the other end the fantasy of the nuclear family as a potential haven in a heartless world is rapidly unravelling supplanted with a hypercompetitive neo traditionalist mobile neoliberal family seeking to capitalise on the uneven spread of resources in order to maximise the futures of its own children As neoliberalism has always been split between socio economic realities and the expectations of where we should be we are always living with the anxiety of being left behind and the hope that the best is yet to come The chapters in this collection signal the troubles of the neoliberal family in particular the gulf between the practical conditions of family life and the formation of new fantasies The volume addresses the neoliberal family in a range of contexts from the domestic reproductive and bio political regulation of family life the representations of the neoliberal family on television and across social media to the negotiation of family dynamics in maternal memoirs The work provides a much needed corrective to the critical emphasis on the macrostructures of the neoliberal world
