Sexus Und Herrschaft Die Tyrannei Des Mannes In Unserer Gesellschaft:

The Americanization/Westernization of Austria Anton Pelinka, 2017-07-12 Political economic social and cultural modernization dramatically transformed twentieth century Austria Innovative new methods of production and management such as the assembly line changed Austrian business after World War I much as the Marshall Plan shaped the economy after World War II At the same time jazz Hollywood movies television programming and mass commodities were as popular in Austria as elsewhere in Western Europe Even political campaigns followed American trends All this occurred despite the fact that in West Germany American nostrums and models had been rejected modified or translated into milder versions Ultimately Austria was Western Europeanized when it joined the European Union in 1995 How Western are the Austrians This volume analyzes trends toward Americanization and Westernization in Austria throughout the twentieth century Reinhold Wagnleitner's lead essay studies the foreign politics of American pop culture Anna Schober and Monika Bernold analyze the influence of Hollywood movies and television on postwar Austrian society Reinhard Sieder follows changing discourses on family life while Ingrid Bauer looks at American influences on Austrian women Maria Regina Kecht Kurt Drexel and Christina Hainzl follow the American impact on Austrian literature opera and art Banker Anton Fink examines American banking and finance practices Andre Pfoertner and Matthias Fuchs study the Americanization of Austrian business and tourism Helmut Lackner describes how well heeled Austrian travelers to the United States brought back innovative American production methods and other ideas gleaned from world expositions before World War I American influences on Austrian politics and political science are dissected by Gunter Bischof Martin Kofler Fritz Plasser and Anton Pelinka The Americanization of Vienna is the subject of journalist Armin Thurnher's essay Comparisons with West Germany are presented by Michael Hochgesc

Engendering The Social Marshall, Witz, Anne, 2004-03-01 This edited volume focuses on the problematic engendering of classical and contemporary sociological theory addressing questions such as How were the foundations of sociological theory shaped by an implicit masculinity Did classical sociology simply reflect or actively construct theories of sexual difference How were alternative accounts of the social suppressed in sociology's founding moments Feminist interventions in sociology are still seen as marginal to sociological theorizing This collection challenges this truncated vision of sociological theory In part one contributors interrogate the classical canon exposing the masculinist assumptions that saturate the conceptual scaffolding of sociology In part two contributors consider the long standing and problematic relationship between sociology and feminism retrieving voices marginalized within or excluded from canonical constructions of sociological theory In part three contributors engage with key contemporary debates explicitly engendering accounts of the social Engendering the Social is unique in that it not only critically interrogates sociological theory from a feminist perspective but also embarks on a politics of reconstruction working creatively at the interface of feminist and sociological theory to induce a more adequate conceptualisation of the social This is a key text for undergraduate and

postgraduate students in sociology social theory and feminist theory Utopische Profile: Widersprüche und Synthesen des 20. Jahrhunderts Richard Saage,2001 **Kant's Theory of Value** Christoph Horn,Robinson dos Santos,2022-10-03 In explicit form Kant does not speak that much about values or goods The reason for this is obvious the concepts of values and goods are part of the eudaimonistic tradition and he famously criticizes eudaimonism for its flawed material approach to ethics But he uses on several occasions the traditional teleological language of goods and values Especially in the Groundwork and the Critique of Practical Reason Kant develops crucial points on this conceptual basis Furthermore he implicitly discusses issues of conditional and unconditional values subjective and objective values aesthetic or economic values etc In recent Kant scholarship there has been a controversy on the question how moral and nonmoral values are related in Kant's account of human dignity This leads to the more fundamental problem if Kant should be seen as a prescriptivist antirealist or as subscribing to a more objective rational agency account of goods This issue and several further questions are addressed in this volume *The History of Everyday Life* Alf Ludtke,1995-05-21 Introduced by Alf Ludtke the volume includes two empirical essays one by Lutz Niethammer on life courses of East Germans after 1945 and one by Ludtke on modes of accepting fascism among German workers The remaining five essays are theoretical *Sexus und Herrschaft* Kate Millett,1982 God Or Goddess? Manfred Hauke,1995 Hauke provides a tour de force study of the history and basic characteristics of modern feminism Hauke presents an objective detailed study of the facts of feminist theology around the world using their own words and writings He looks at the distinctiveness of feminist theology what its image of man is as a fundamental point of departure its basis from the experience of women as formal principle its views of the image of God Christ Mary the Church liturgy ecology and eschatology After carefully describing what the feminist position is Hauke gives a critique from the point of view of the Catholic tradition The purpose of the present work is to provide not a kind of encyclopedia on feminist theology but an introduction and representative survey of central themes that will enable one to form a personal opinion Addressed here are not just specialists in theology but all women and men who desire to inform themselves further about the powerful historical current that is feminist theology Manfred Hauke **Engels @ 200** Frank Jacob,2020-11-25 Friedrich Engels was one of the most important German thinkers of the 19th century and his writings are still important today Addressing the pressing issues of his time the broadly interested scholar Engels would write about many different topics and thereby not only pave the way for a science based socialism but also for further studies in sociology history and philosophy To highlight the value and impact of Engels work as well as emphasize its relevance for major issues that will determine the 21st century the present anthology assembles scholars from different countries and research fields to discuss how to read and gain insights from reading his works in our time It also attempts to stimulate further research about Engels who 200 years after his birth deserves to be fully brought out of the shadow of his friend and colleague Karl Marx Transatlantic Conversations Mary Evans,2016-02-24 The second wave of feminism which challenged and changed many

assumptions about the world in which we live was a product of various western cultures with no single country possessing a monopoly on the writing of the texts that became the canonical statements of the new feminism Though many of the contributions to feminist scholarship that went on to become internationally significant hailed from Europe and the United States these works were often formed within the context of local debates and framed within traditions of feminism and other political engagements specific to these nations Transatlantic Conversations explores the differences yielded by such conditions and their consequences for the meaning of feminism Examining the meaning and implications of the different ways in which various shared categories have been treated on both sides of the Atlantic this volume both analyses differences within feminism and provides a framework for the wider discussion of what is sometimes assumed to be the homogeneity of The West With leading scholars from either side of the Atlantic presenting brand new work Transatlantic Conversations suggests directions for future research which will be of interest to scholars of feminism gender studies sociology political science and international relations geography and cultural studies as well as anyone concerned with the ways in which the different political and intellectual traditions of Europe and the US have shaped current political and intellectual debates
