Shadow And Substance:

Shadow and Substance Paul V. Carroll, 1948-10-01 **Shadow and Substance** Paul Vincent Carroll, 1940 **Shadow and Substance** Paul Vincent Carroll, 2013-10 This is a new release of the original 1937 edition Shadow and substance Paul V. Carroll, 1974 **Shadow and Substance**, 1858 **The Time Is Fulfilled** F. F. Bruce, 2006-11-01 The Time is Fulfilled In this volume of essays based on the 1977 Moore College lectures in Sydney Australia F F Bruce examines five examples of the fulfillment of the Old Testament in the New In the first essay from which the title of the book is taken Bruce addresses Jesus words in Mark 1 14 15 The time is fulfilled and the kingdom of God has drawn near repent and believe the good news Bruce stresses that in fulfilling the time Jesus is not merely responding passively to conditions favorable to the establishment of his kingdom rather he has decisively taken the initiative to inaugurate the fullness of time which he has announced The remaining essays discuss other instances of the development of Old Testament themes in the New Testament the ways in which the ministry of Jesus confirms the testimony of Moses Abraham as the prototype of those elected by God the notion of a shadow of good things to come Heb 10 1 and the spirit of prophecy Rev 19 10 Grasping Shadows William Chapman Sharpe, 2017-08-04 What s in a shadow Menace seduction or salvation Immaterial but profound shadows lurk everywhere in literature and the visual arts signifying everything from the treachery of appearances to the unfathomable power of God From Plato to Picasso from Rembrandt to Welles and Warhol from Lord of the Rings to the latest video game shadows act as central players in the drama of Western culture Yet because they work silently artistic shadows often slip unnoticed past audiences and critics Conceived as an accessible introduction to this elusive phenomenon Grasping Shadows is the first book that offers a general theory of how all shadows function in texts and visual media Arguing that shadow images take shape within a common cultural field where visual and verbal meanings overlap William Sharpe ranges widely among classic and modern works revealing the key motifs that link apparently disparate works such as those by Fra Angelico and James Joyce Clementina Hawarden and Kara Walker Charles Dickens and Kumi Yamashita Showing how real world shadows have shaped the meanings of shadow imagery Grasping Shadows guides the reader through the techniques used by writers and artists to represent shadows from the Renaissance onward The last chapter traces how shadows impact the art of the modern city from Renoir and Zola to film noir and projection systems that capture the shadows of passers by on streets around the globe Extending his analysis to contemporary street art popular songs billboards and shadow theatre Sharpe demonstrates a practical way to grasp the dark side that looms all around us **Forms of Attention** Frank Kermode, 2024-05-31 Sir Frank Kermode the British scholar instructor and author was an inspired critic Forms of Attention is based on a series of three lectures he gave on canon formation or how we choose what art to value The essay on Botticelli traces the artist s sudden popularity in the nineteenth century for reasons that have more to do with poetry than painting In the second essay Kermode reads Hamlet from a very modern angle offering a useful and playful perspective for a

contemporary audience The final essay is a defense of literary criticism as a process and conversation that while often conflating knowledge with opinion keeps us reading great art and working with and for literature **Shadow and**

Substance a Play in Four Acts.(set PAUL VINCENT. CARROLL,1944 The Cinema and Its Shadow Alice

Maurice,2013-03-15 The Cinema and Its Shadow argues that race has defined the cinematic apparatus since the earliest motion pictures especially at times of technological transition In particular this work explores how racial difference became central to the resolving of cinematic problems the stationary camera narrative form realism the synchronization of image and sound and perhaps most fundamentally the immaterial image the cinema s shadow which figures both the material reality of the screen image and its racist past Discussing early race subjects Alice Maurice demonstrates that these films influenced cinematic narrative in lasting ways by helping to determine the relation between stillness and motion spectacle and narrative drive The book examines how motion picture technology related to race embodiment and authenticity at specific junctures in cinema s development including the advent of narratives feature films and sound In close readings of such films as The Cheat Shadows and Hallelujah Maurice reveals how the rhetoric of race repeatedly embodies film technology endowing it with a powerful mix of authenticity and magic In this way the racialized subject became the perfect medium for showing off shoring up and reintroducing the cinematic apparatus at various points in the history of American film Moving beyond analyzing race in purely thematic or ideological terms Maurice traces how it shaped the formal and technological means of the cinema
